# eConnect Cards App Overview

eConnect Cards App is an improved way to create versatile digital information cards and business cards designed for professionals, individuals, athletes, and businesses to easily share their details, build their brands, and get connected! Our purpose is to simplify networking, streamline contact information sharing, and help maintain lasting connections.

## Features

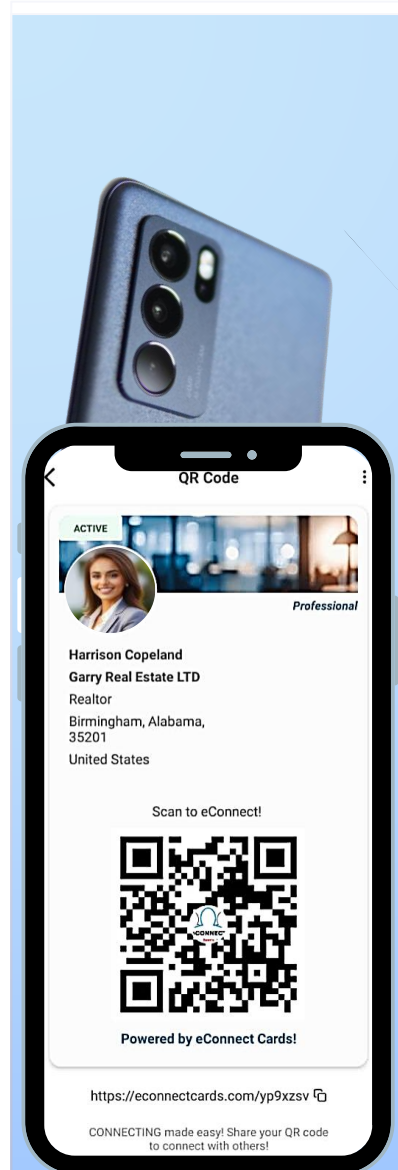

Create and manage your digital information card easily in just few minutes

Instant sharing capabilities via QR codes, texts, emails and social media

Real-time access to all your connections and personalized updates

# Getting Started with the App

## 1. Download & Install the App

1 Open the Apple Store or Google Play Store

2

Search for "eConnect Cards App"

3

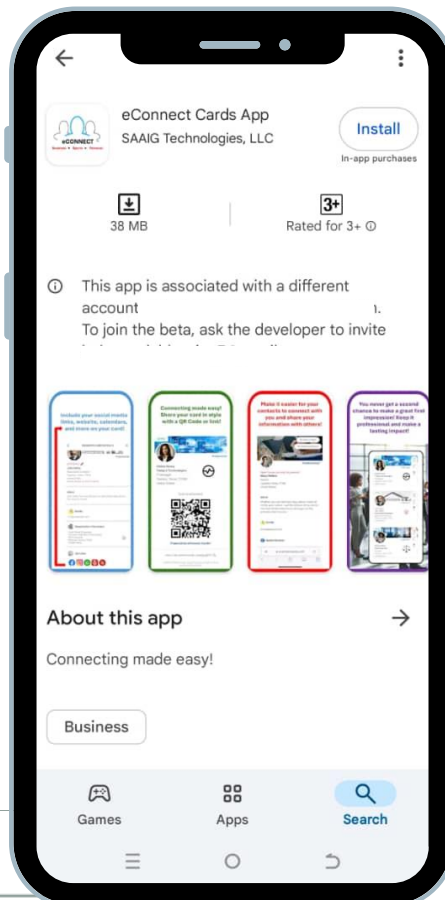

Locate the App

4

Tap "Install"

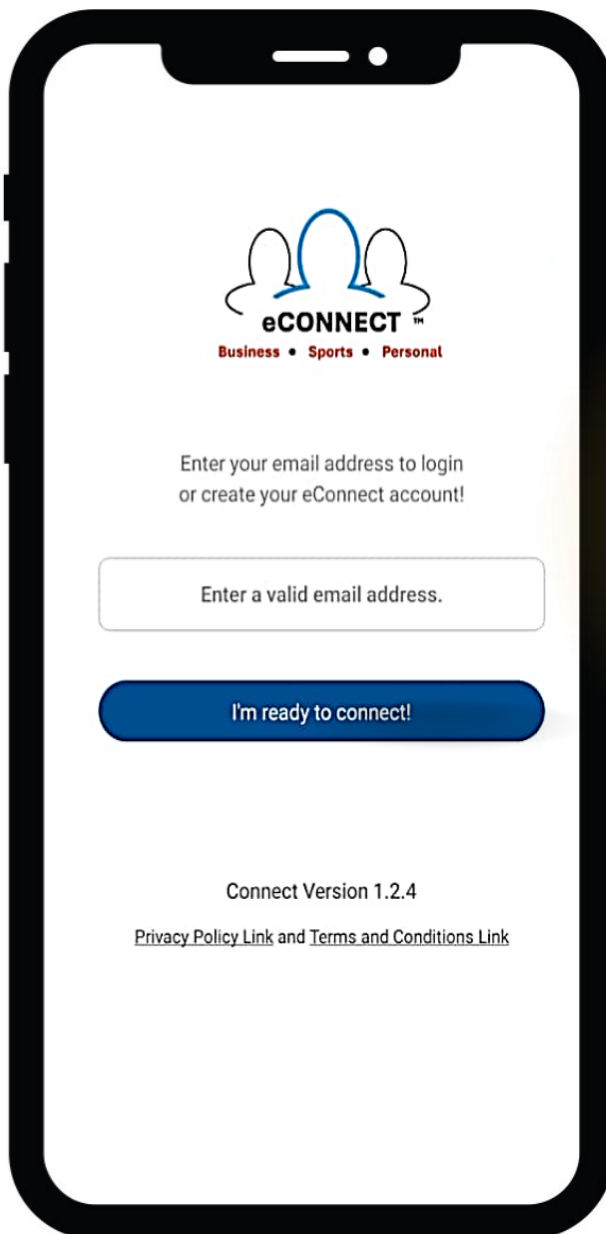

5

Open the App

# Creating an Account

## 2. Sign up

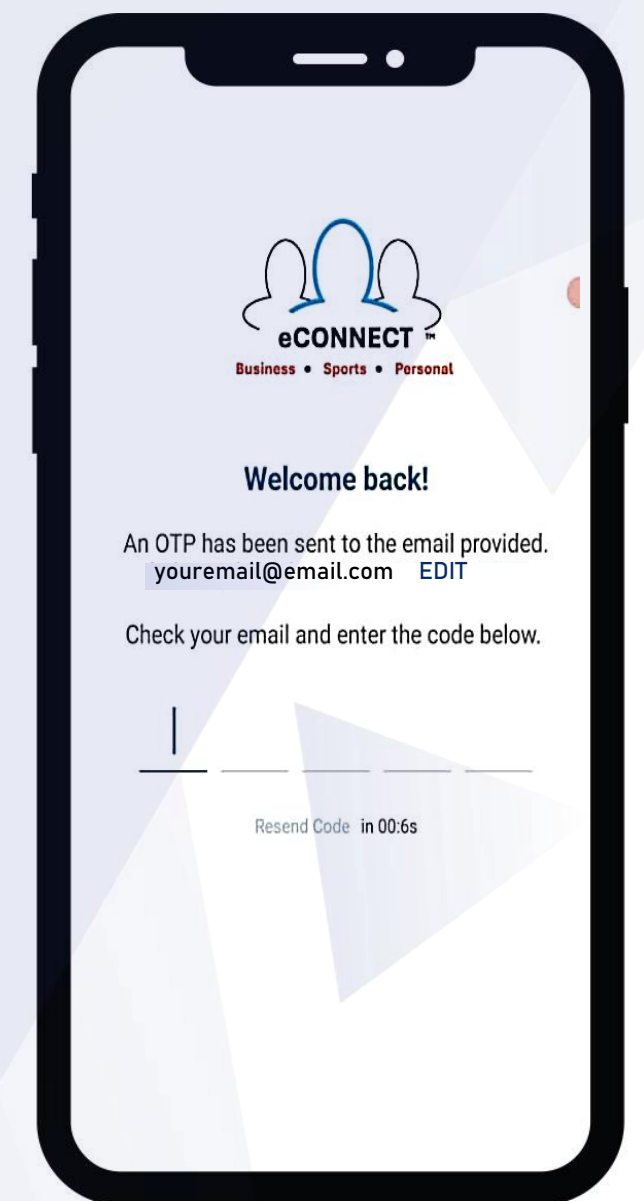

The image shows a smartphone screen with the eCONNECT app interface. At the top is the eCONNECT logo, which consists of three stylized human figures in blue and red, with the text "eCONNECT™" and "Business • Sports • Personal" below it. The main text on the screen says "Enter your email address to login or create your eConnect account!". Below this is a white input field with the placeholder text "Enter a valid email address.". Under the input field is a blue button with the text "I'm ready to connect!". At the bottom of the screen, it says "Connect Version 1.2.4" and provides links for "Privacy Policy Link" and "Terms and Conditions Link".

**Fill in your  
email address**

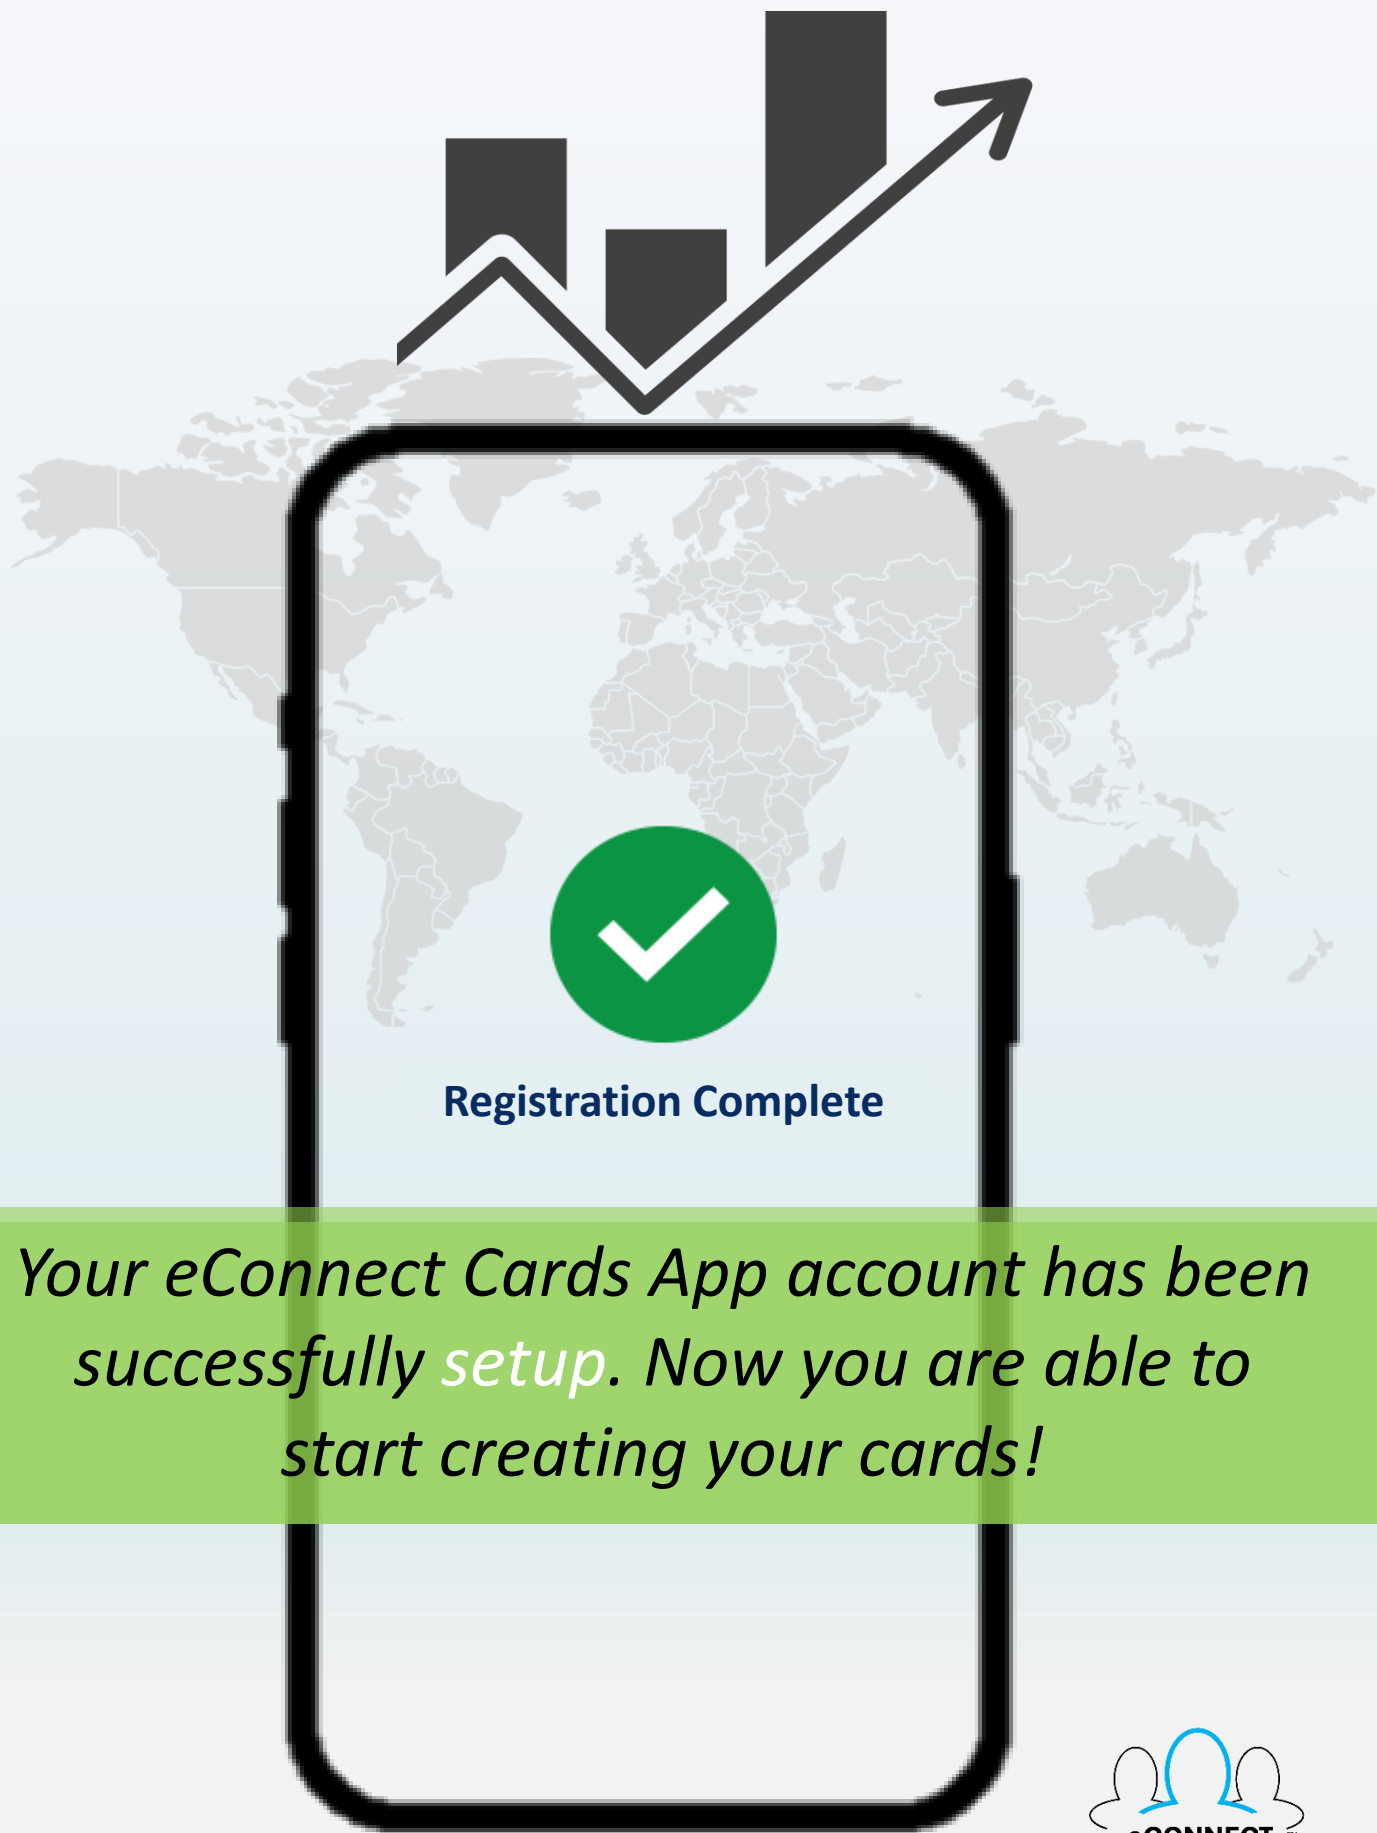

### 3. Email confirmation

Enter the OTP to  
verify your  
email address.

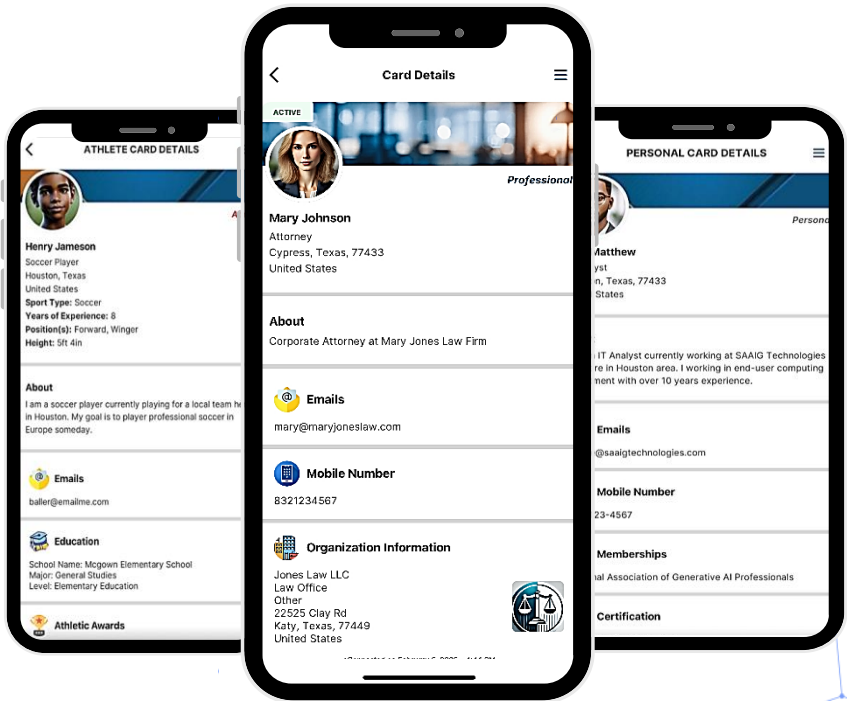

**Registration Complete**

*Your eConnect Cards App account has been successfully **setup**. Now you are able to start creating your cards!*

Fill in the details on the **Contact** section of the Business Card

1

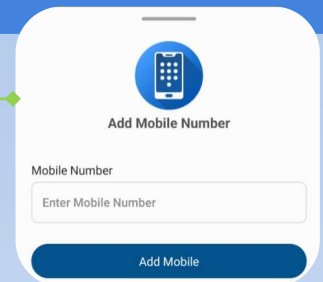

Click the 'Add Email' Button  
Type in your email address

The 'Add Email' screen features a yellow envelope icon with an '@' symbol at the top. Below the icon is the text 'Add Email'. A text input field labeled 'Email Address' with the placeholder 'Enter Email Address' is positioned above a blue button labeled 'Add Email'.

2

Click the 'Add Mobile' Button  
Type in your mobile number

The 'Add Mobile Number' screen features a blue mobile phone icon at the top. Below the icon is the text 'Add Mobile Number'. A text input field labeled 'Mobile Number' with the placeholder 'Enter Mobile Number' is positioned above a blue button labeled 'Add Mobile'.

3

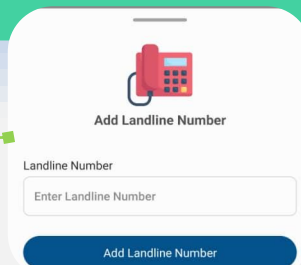

Click the 'Add Fax' Button  
Enter your FAX Number

The 'Add Fax Number' screen features a red fax machine icon at the top. Below the icon is the text 'Add Fax Number'. A text input field labeled 'Fax Number' with the placeholder 'Enter Fax Number' is positioned above a blue button labeled 'Add Fax Number'.

4

Click the 'Add Landline' Button  
Fill in your Landline

The 'Add Landline Number' screen features a red landline phone icon at the top. Below the icon is the text 'Add Landline Number'. A text input field labeled 'Landline Number' with the placeholder 'Enter Landline Number' is positioned above a blue button labeled 'Add Landline Number'.

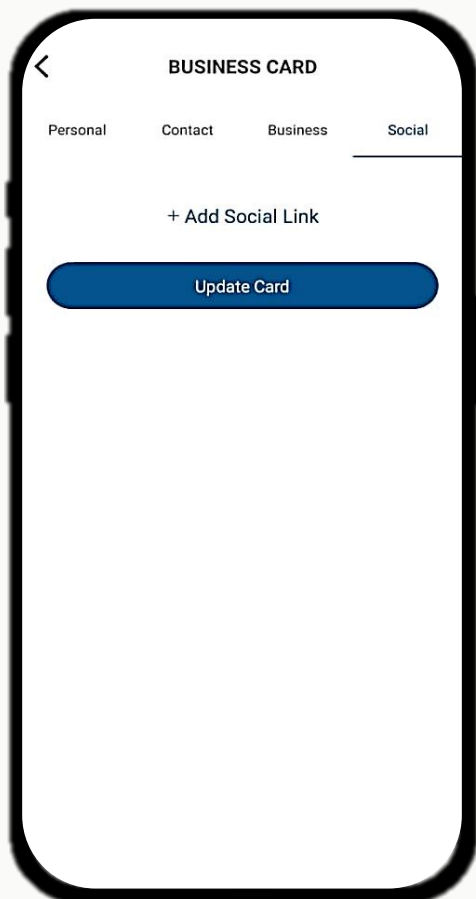

On the **Business** section of the Card,

- Click on **'Add Organization Information'**
- Fill in the Business details and click on **'Add Business'**
- After filling the Business details, click the **'Save & Continue'** Button

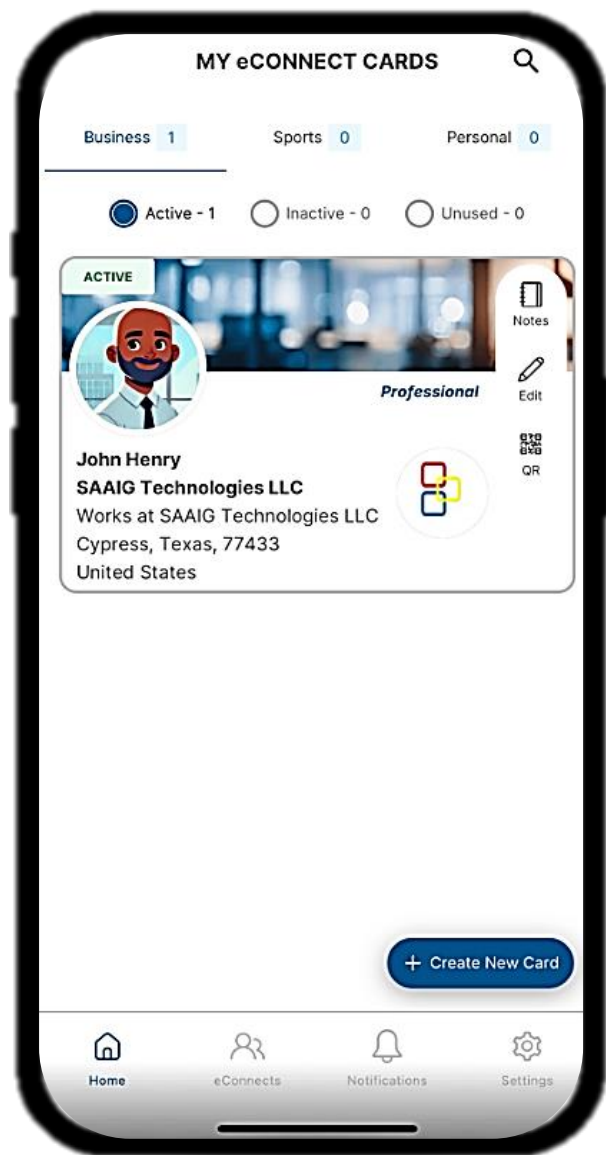

The image illustrates the process of adding business information to a digital business card. It consists of three smartphone screens:

- Screen 1 (Left):** Displays the 'BUSINESS CARD' menu with tabs for Personal, Contact, Business, and Social. The 'Business' tab is selected, and the 'Add Organization Information' button is highlighted with a red arrow pointing to the next screen.
- Screen 2 (Right):** Shows the 'Add Business' form. It includes a header with a business icon and the text 'Add Business' and 'Add any business information you wish to share on your Card.' The form fields are: Business Name, Brief Business Description, Industry Type, Business Address, City\*, State\*, Zipcode, Country\*, and Website. A red arrow points from the 'Add Organization Information' button on the first screen to the 'Add Business' button on this screen.
- Screen 3 (Bottom):** Shows the 'Add Business' button, which is a blue button with the text 'Add Business'.

- Finally add your social media links by clicking **'Add Social Link'** on the Social tab
- Fill in the details and **'Add to Card'**
- Click on the **'Update Card'** Button

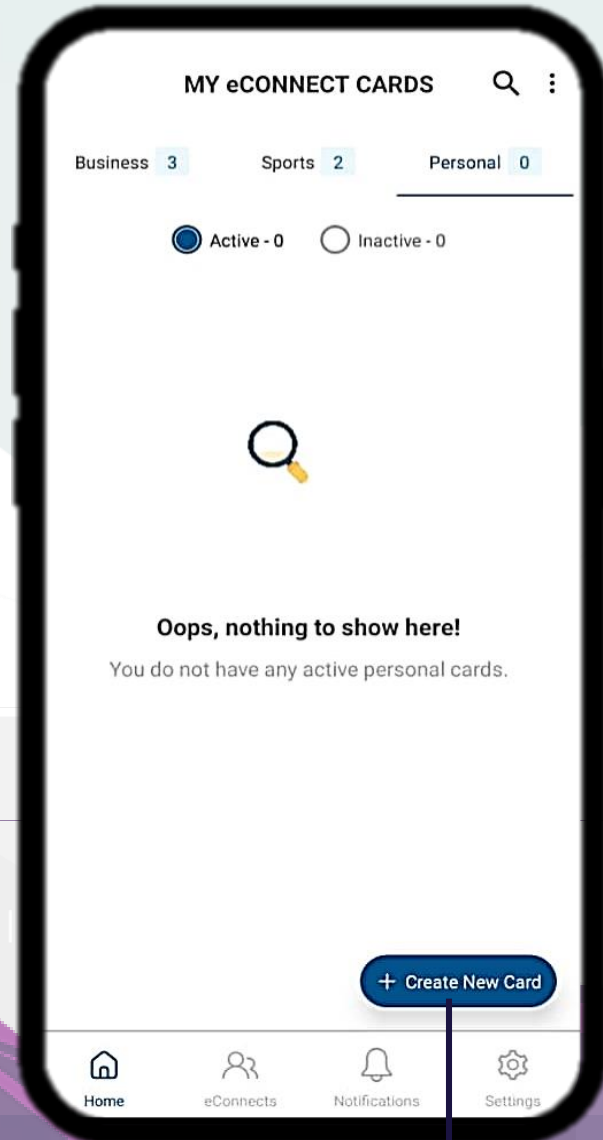

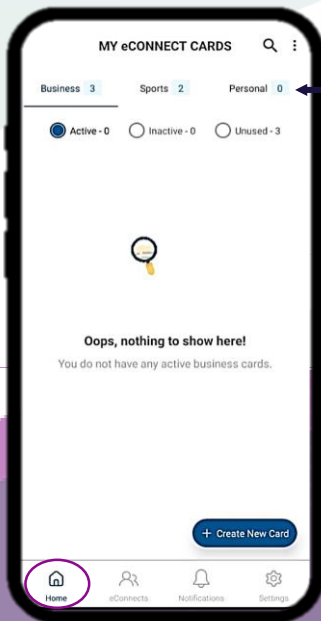

You have  
successfully  
setup your  
Business Card!

# The User Interface Elements and Function

## 01 'Business' Tab

The **Business** tab in the eConnect Cards app provides users with a list of all **Professional Cards** they have subscribed to. Each business card falls into one of the following statuses i.e. Active, Inactive and Unused. This tab allows users to manage and track their professional connections efficiently.

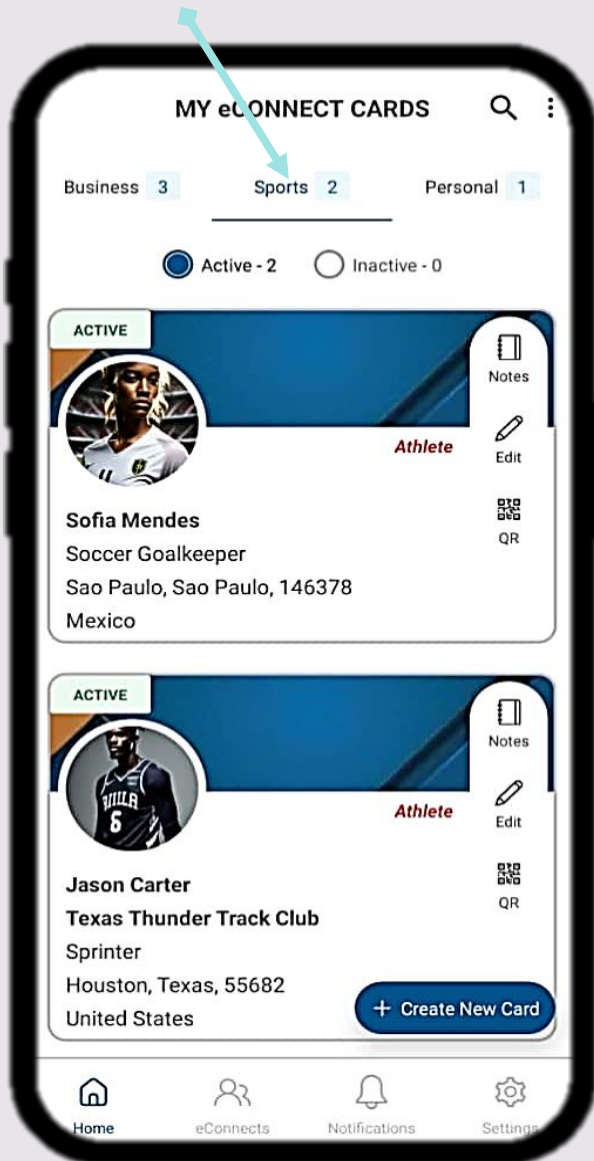

## 02

## 'Sports' Tab

This shows a list of all Athletes card created by a user. Each card will have one of the following statuses: Active or Inactive.

This tab helps users easily manage and organize their athlete profiles

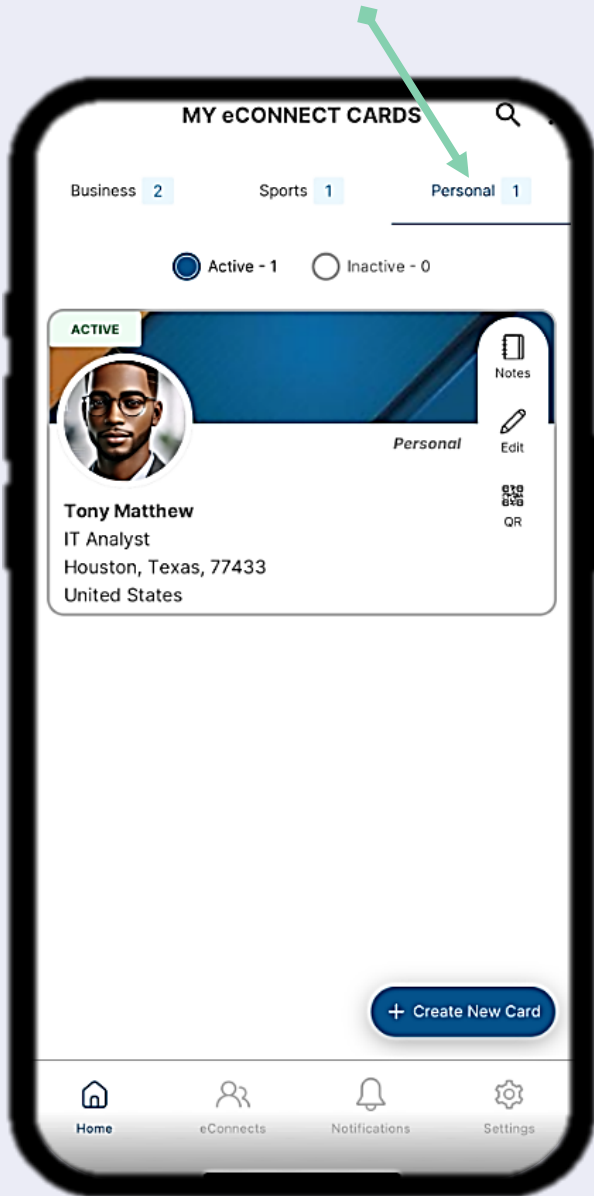

03

## 'Personal' Tab

The **Personal** tab displays a list of all **Personal Cards** created by the user, allowing for easy management and access to individual profiles. Each card also has either an **Active** or **Inactive** status

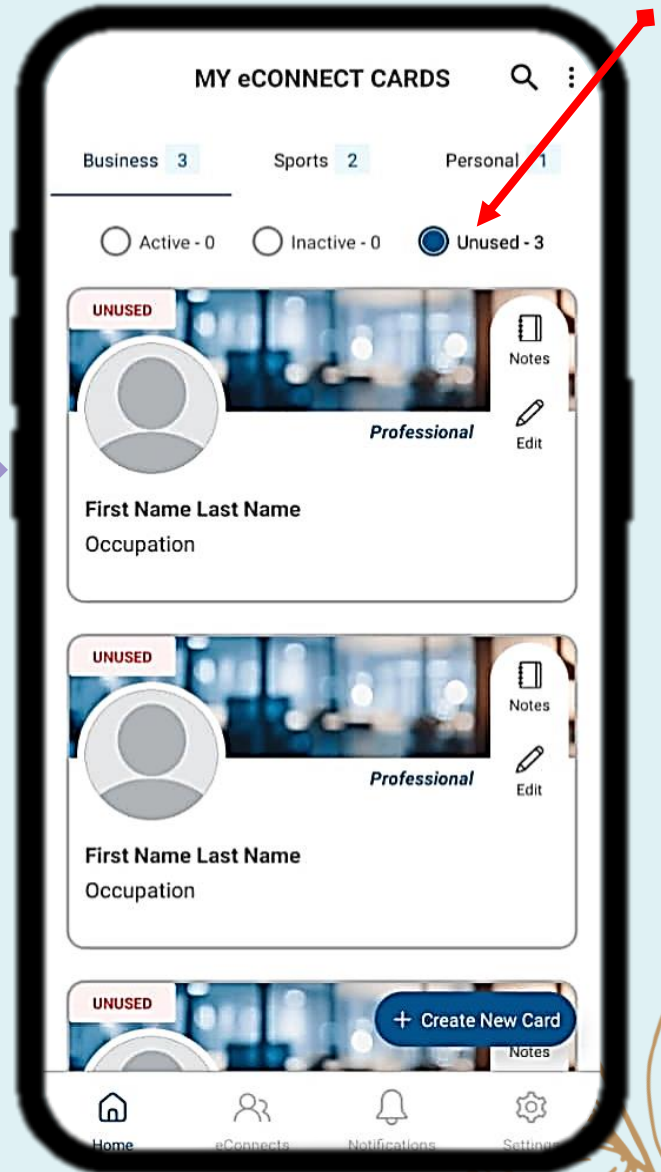

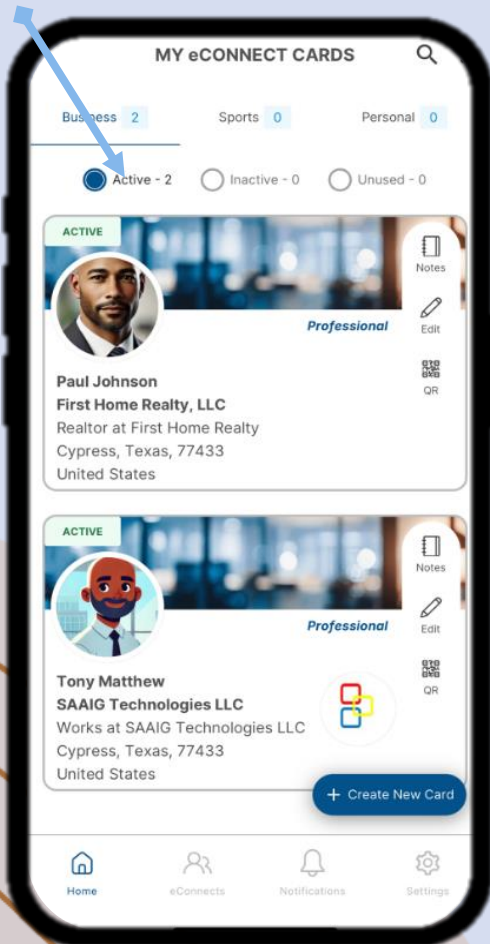

04

## Unused Cards

These are Professional cards that has been subscribed to but has not yet been customized. Available only to Business cards subscribers. The Unused cards are listed under the 'Unused' tab

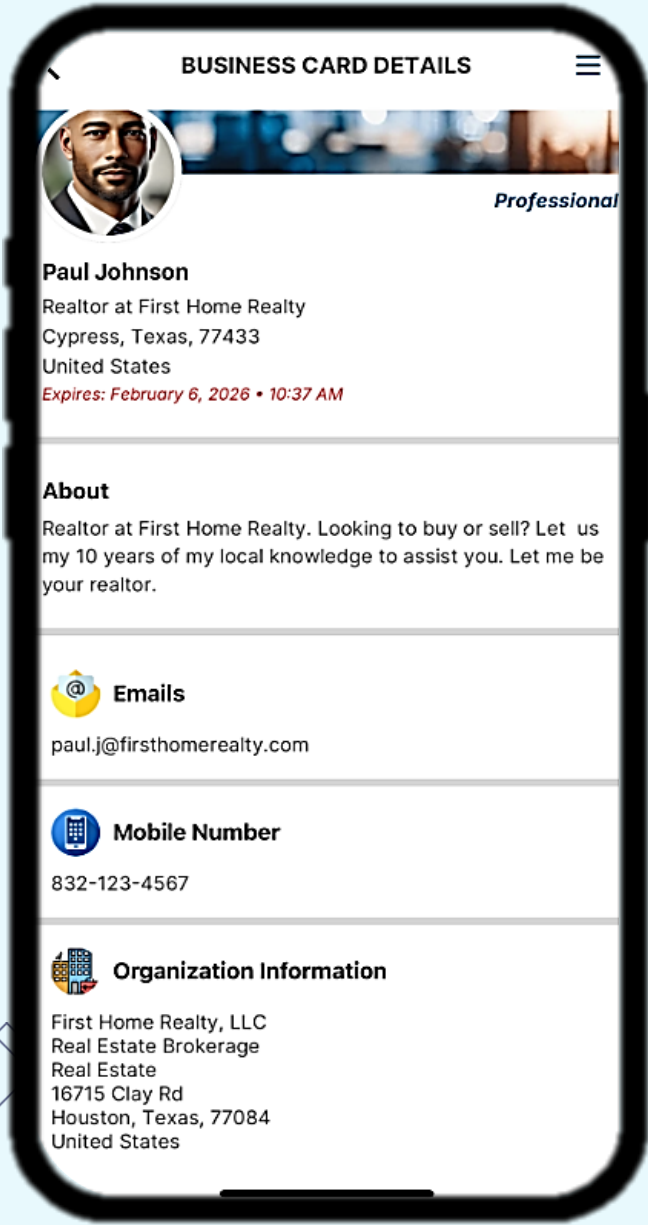

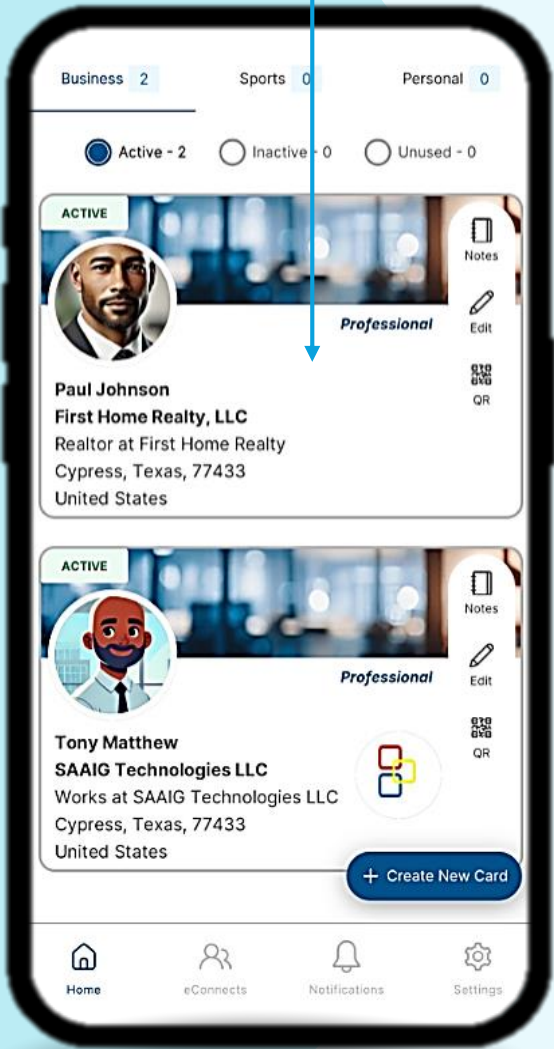

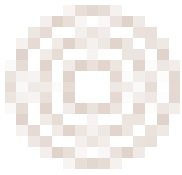

This is a list of eConnect cards that are actively and currently in use by a User. Active cards are displayed in the 'Active' tab.

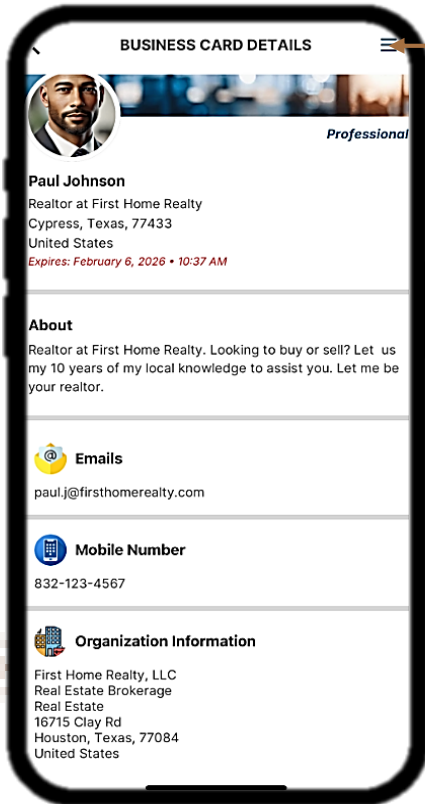

# Card Details View

Click on the Card to view details

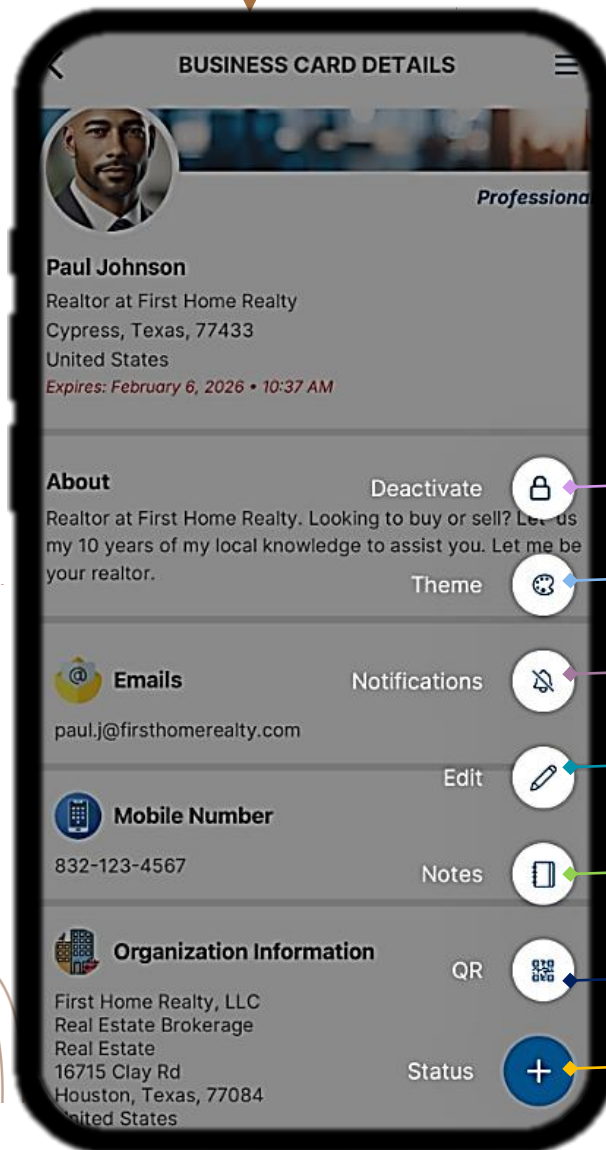

# Card Details Menu

Click on the **menu** icon to view card menu

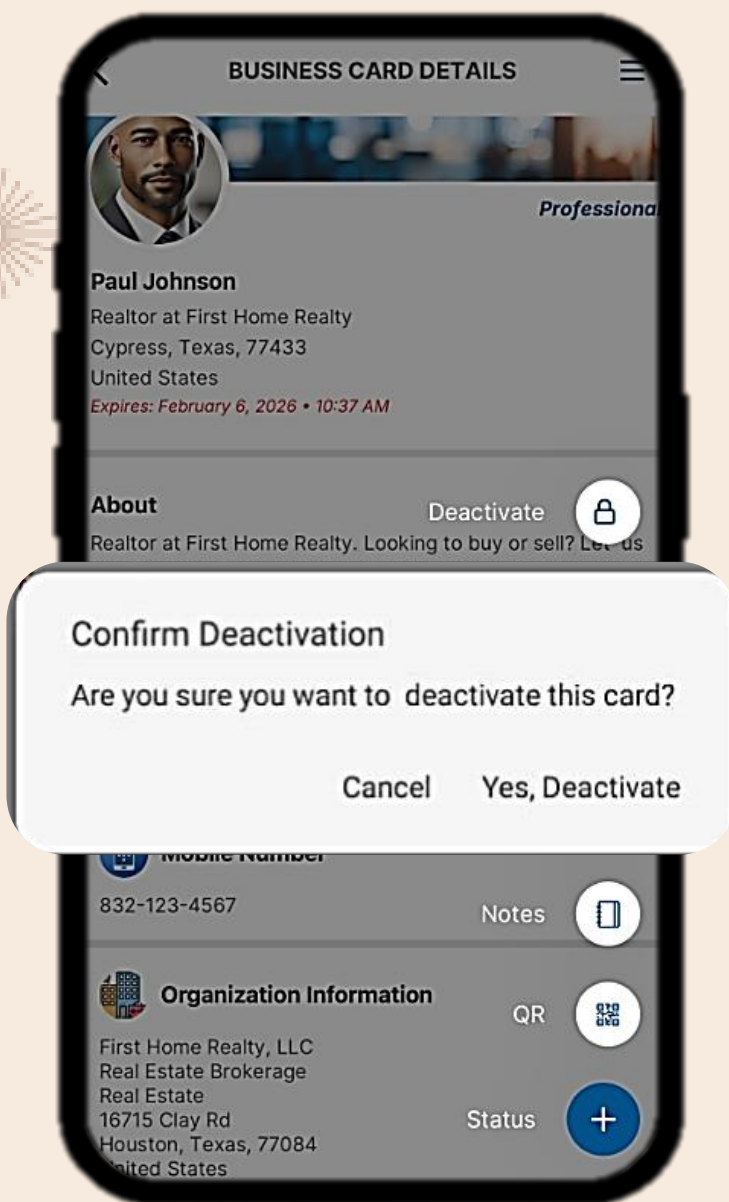

1

### **Card Deactivation:**

To deactivate a card, follow these steps:

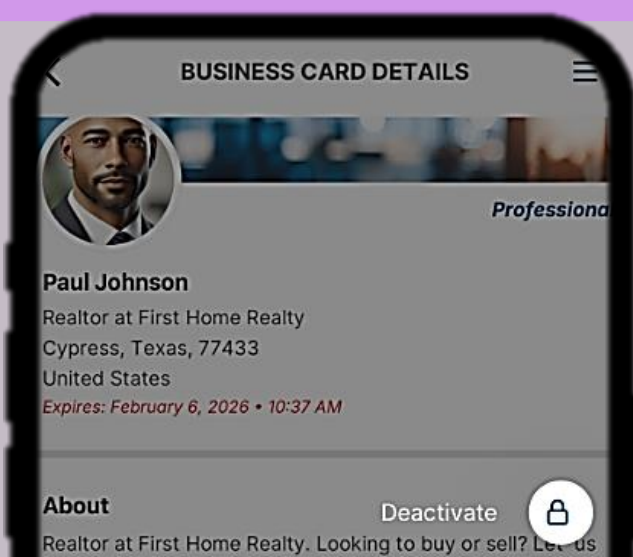

- Click on the **'Deactivate'** icon.
- When prompted, select **'Yes, Deactivate'** to confirm.

**Note:** All deactivated cards will be moved to the **Inactive Cards** tab until reactivated.

This is a list of eConnect cards that has been subscribed to but later deactivated by the user. These can be accessed under the 'Inactive' tab

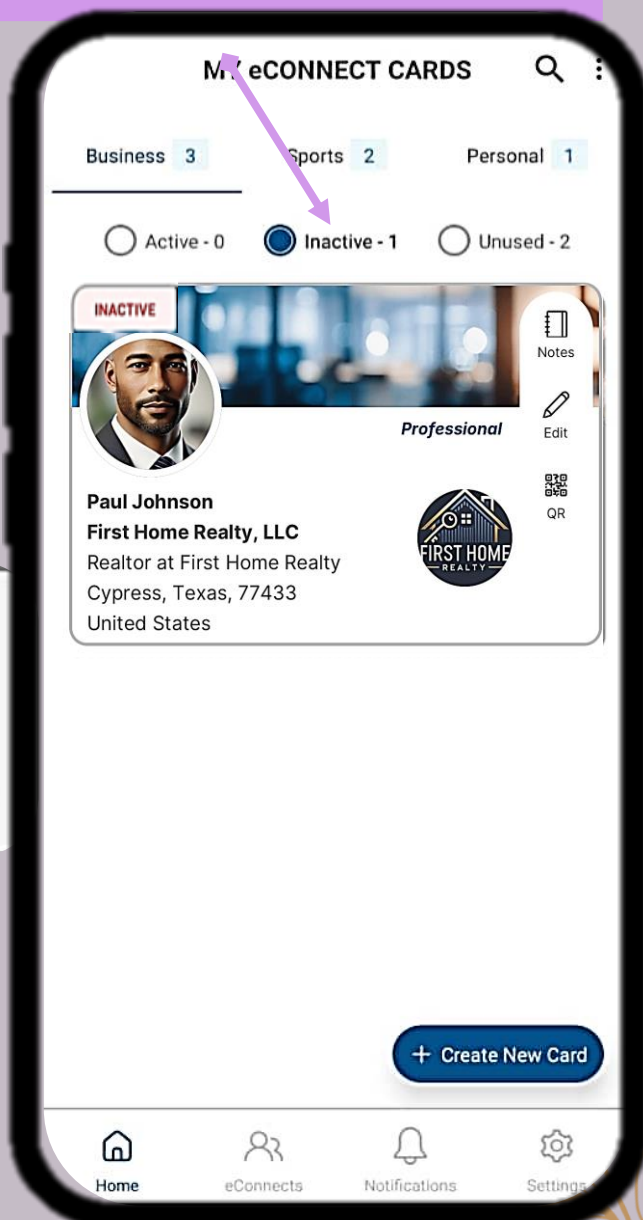

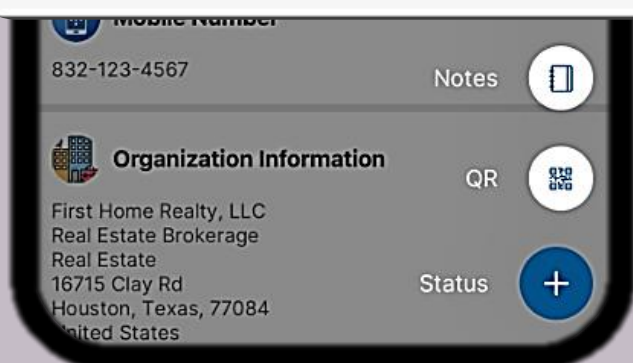

## Confirm Deactivation

Are you sure you want to deactivate this card?

Cancel

Yes, Deactivate

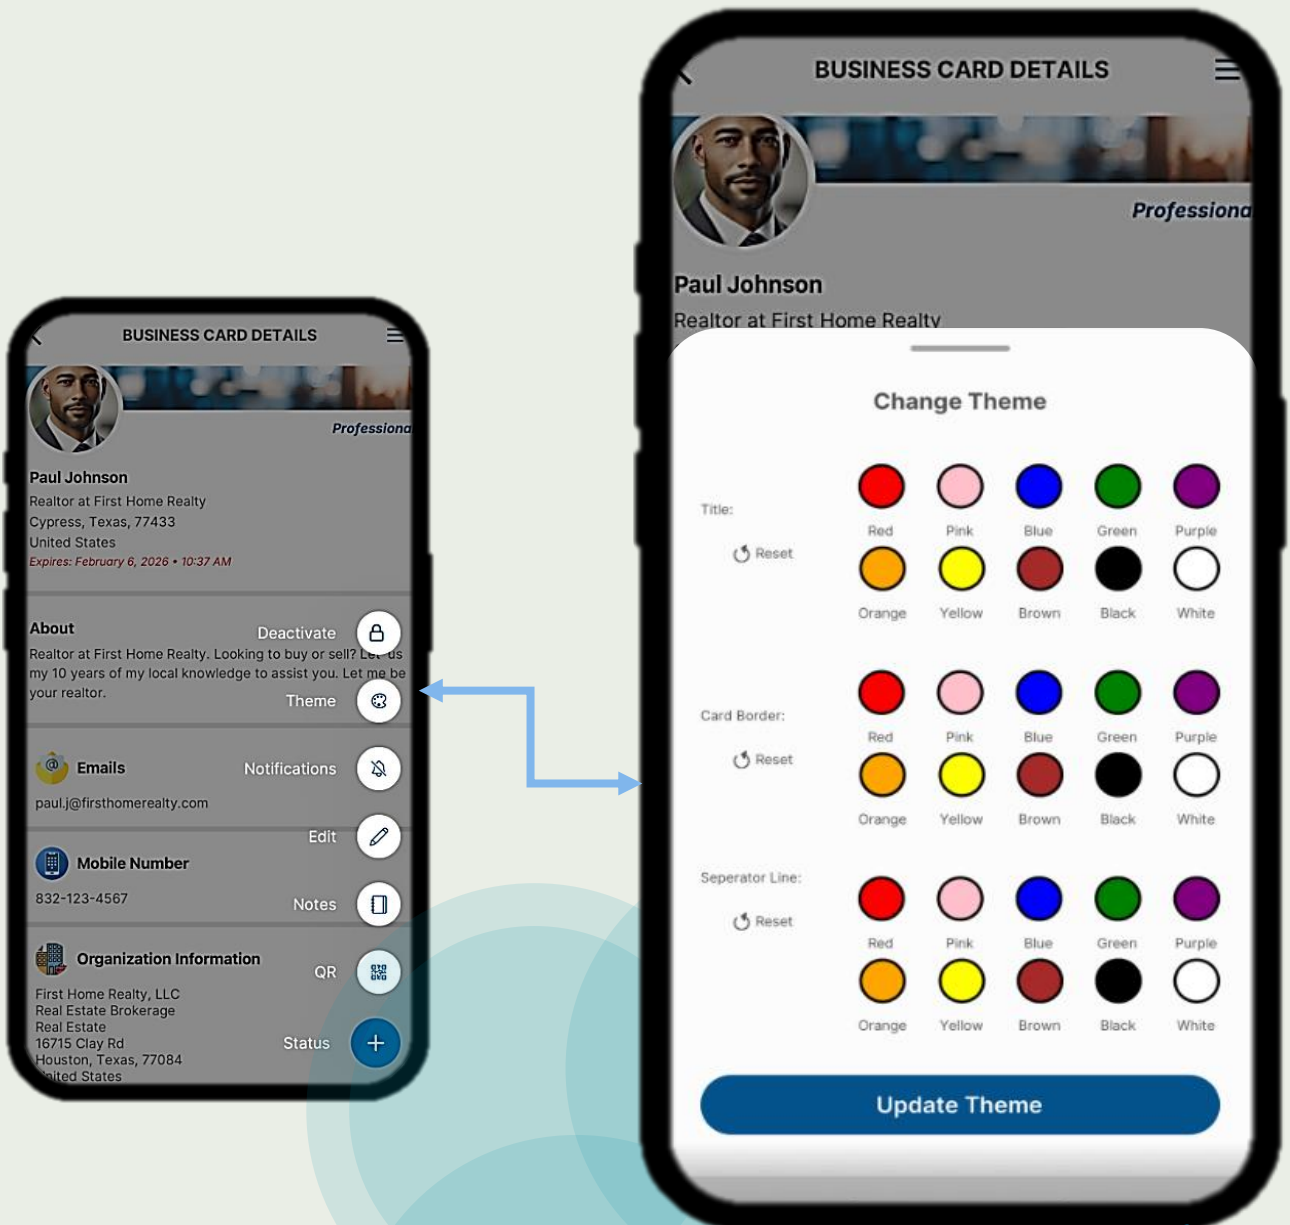

## Theme Customization:

Users can personalize the color of the card details view..

### To change the card details theme:

- Click on '**Theme**' in the menu options
- Select the '**Update theme**' button to apply the changes.

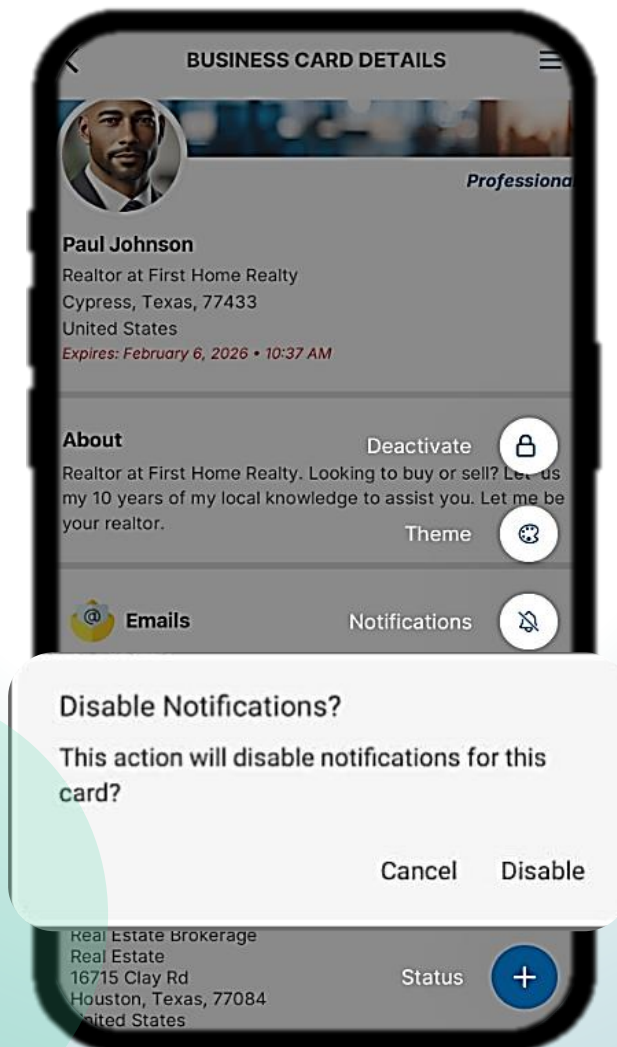

3

### **Updates Notification:**

The notification feature allows users to enable or disable alerts when their connections make updates.

### **To manage notifications:**

Click on the '**Notification**' icon to enable or disable update notifications.

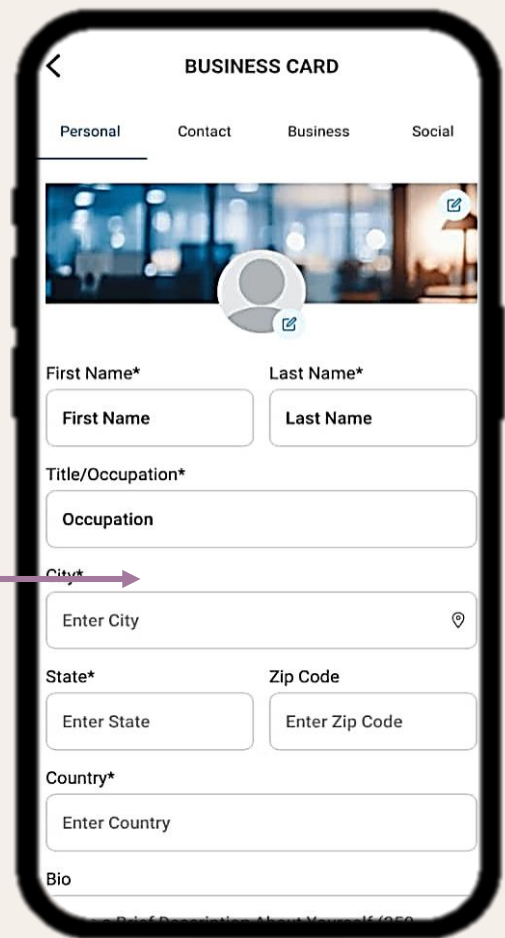

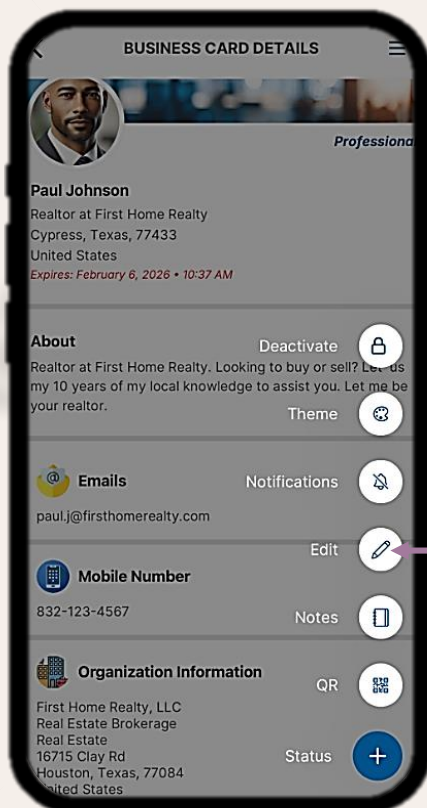

## Edit:

The **Edit** function allows you to customize or update your eConnect Cards, ensuring your information stays current and accurate.

### To edit a card:

- Click on the 'Edit' icon.
- Update the card details as needed.

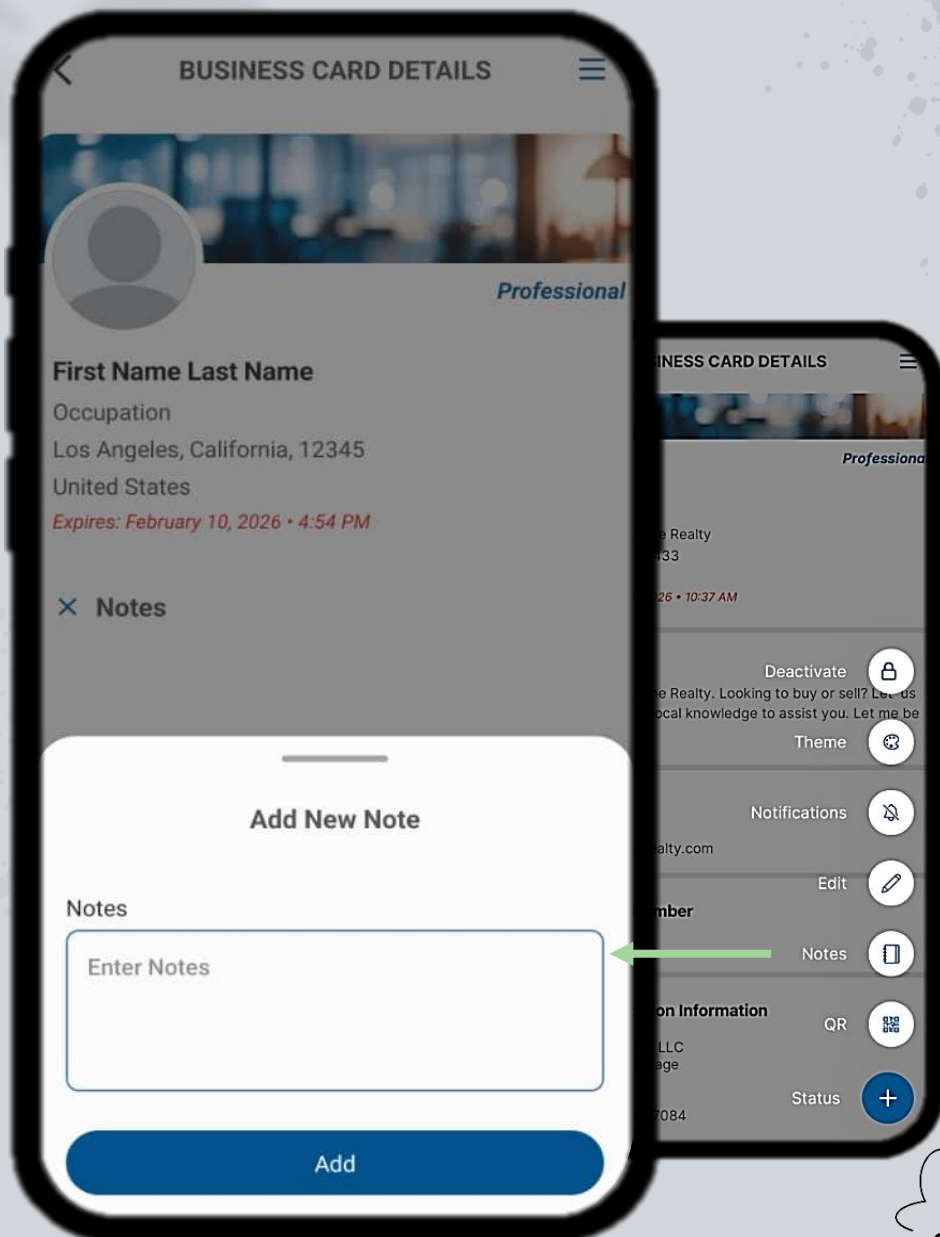

5

### **Notes:**

The **Notes** feature functions as a digital notepad, allowing users to record and save meaningful events, important details, or personal reminders.

#### **To add a new note:**

- ☐ Click on the **'Notes'** icon.
- ☐ Enter your text.
- ☐ Click the **'Add'** button to save the note.

**QR Code Sharing:**

The **QR Code** feature allows you to connect and share your contact details effortlessly.

**You can share your QR Code using one of the following methods:**

**Share QR code by scanning**

This method allows others to instantly access your contact details by scanning your QR code

1

2

**Share QR code as a Link**

You can share your QR code as a clickable link, allowing others to access your contact details easily.

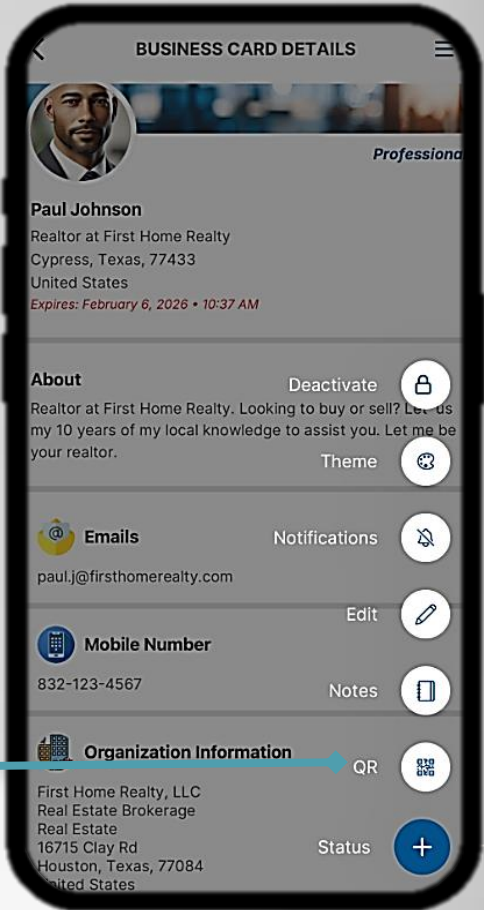

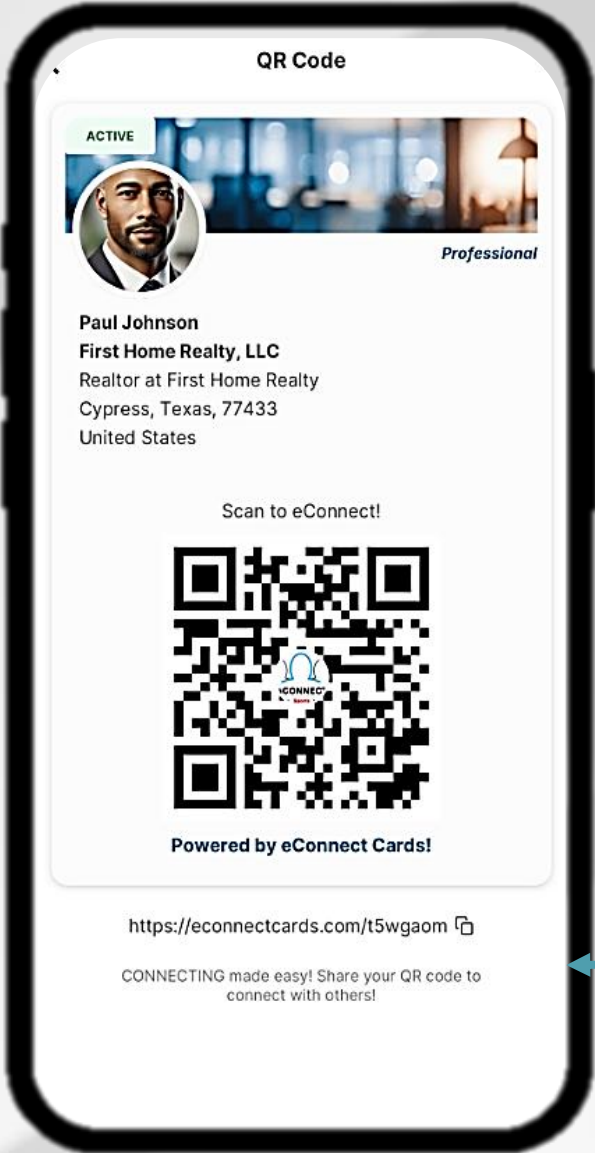

3

**Add QR Code to Home screen**

You can quickly access and share your QR code by adding it to your device's home screen.

# 1. Share QR Code by Scanning

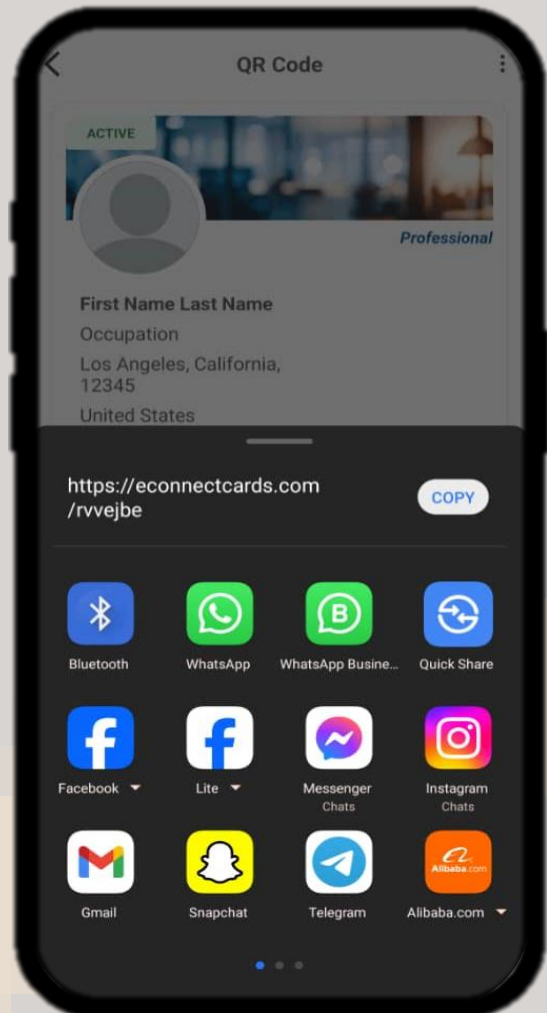

- 1. Open your QR Code from the app.
- 2. Ask the recipient to scan the QR code using their smartphone camera or a QR code scanner.
- 3. Once scanned, your contact details will be displayed and can be saved immediately.

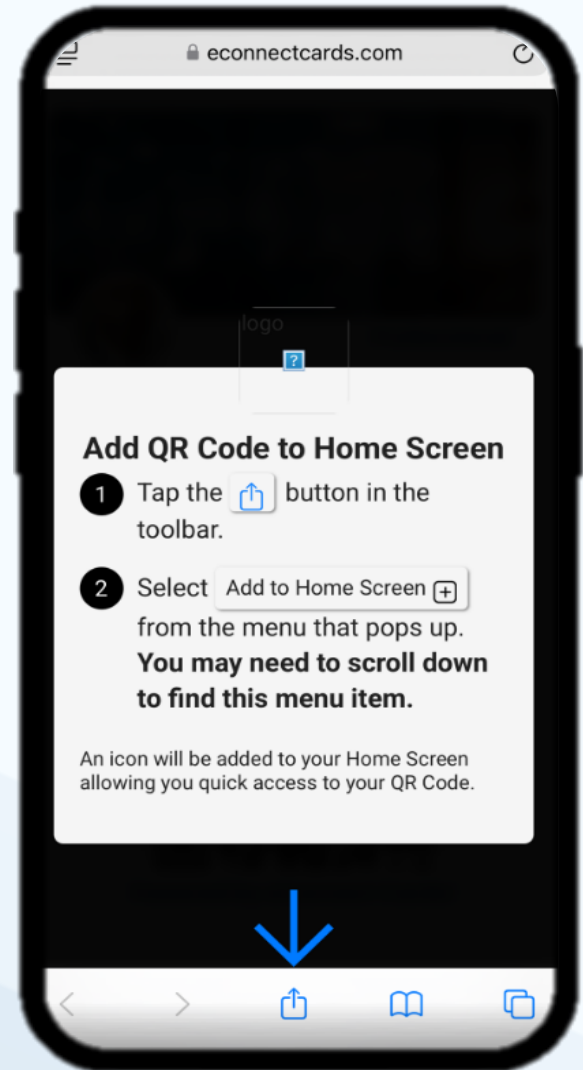

## 2. Sharing your QR link

1. Open your QR Code in the app.
2. Select the 'Share as Link' option.
3. Copy the generated link and share it via email, messaging apps, or social media.

When recipients click the link, they will be directed to your digital contact card.

### 3. Add to home screen

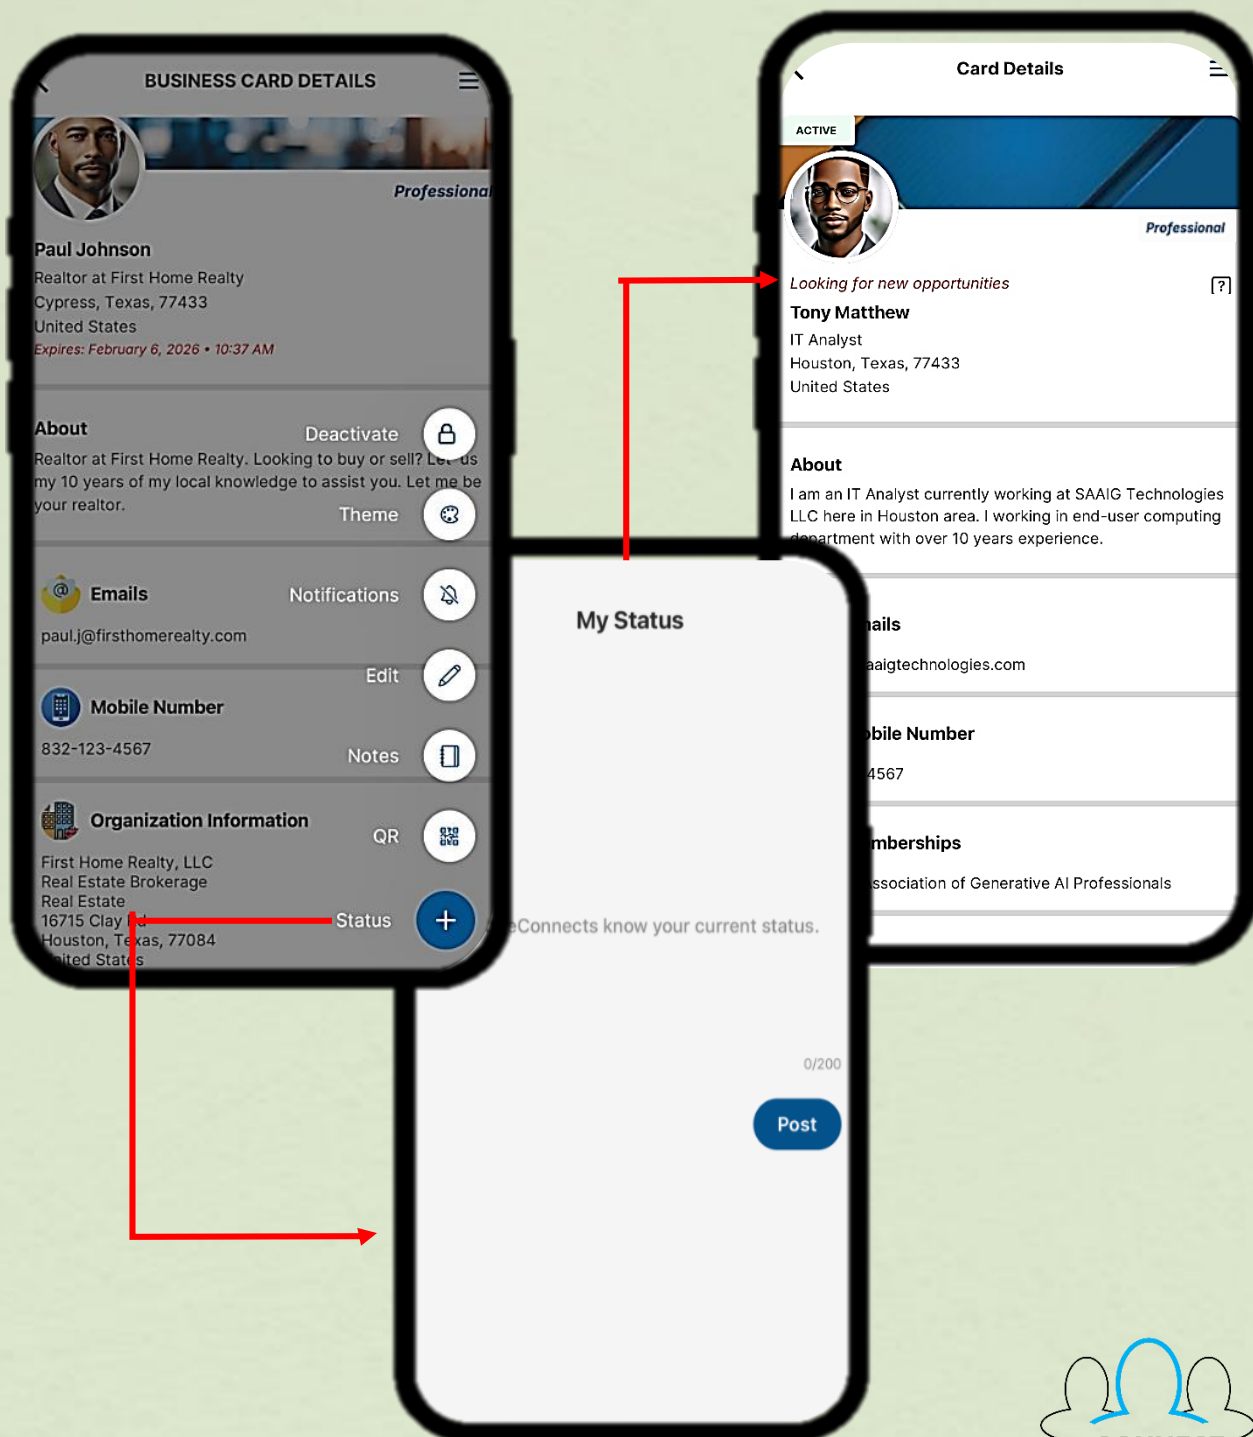

1. Open your **QR Code** in the app
2. Select the **'Add to Home Screen'** option.
3. Follow the on-screen instructions to complete the setup.

7

## Status:

This feature enables you share real-time updates about your contact information with all your connections.

To update your status, click on the **'Status'** icon, update your status and press the **'Post'** Button to submit.

The **eConnect** tab displays a list of all **Businesses**, **Individuals**, and **Athletes** who have shared their information with you, making it easy to access and manage your connections.

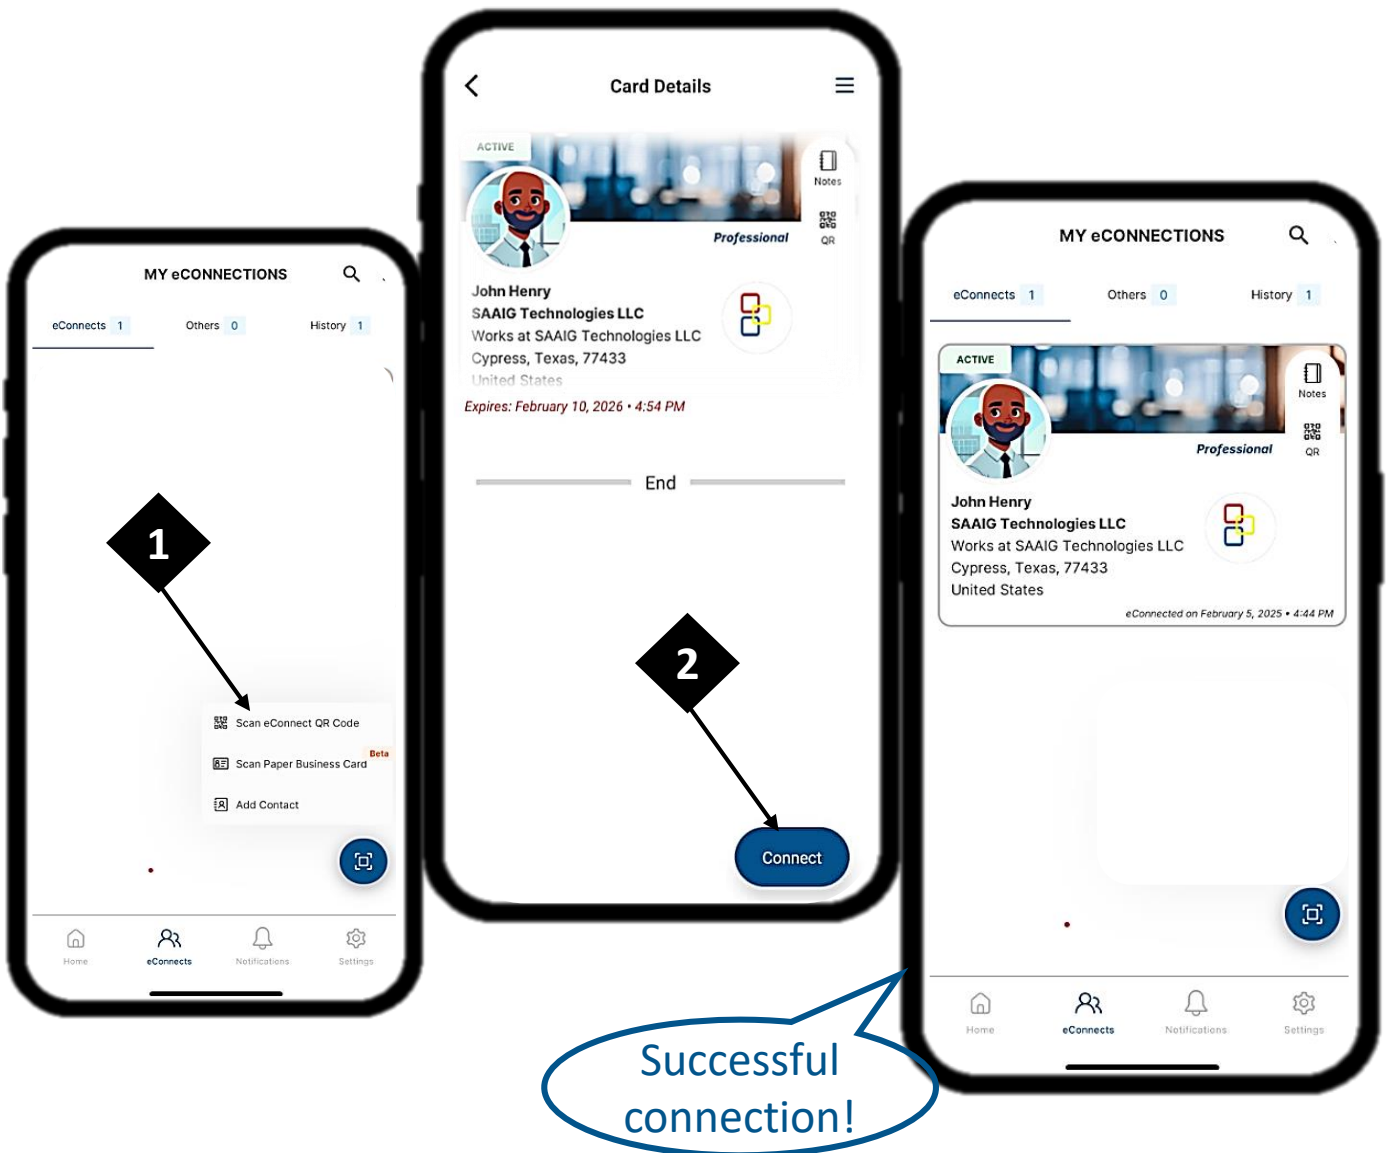

# Managing eConnect Cards connection

## **Connecting with Other Users:**

To connect with other eConnect Cards App users, follow these steps:

- ❖ Tap the **"Scan eConnect QR Code"** option.
- ❖ Scan the QR code of the person you want to connect with.
- ❖ Click the **"Connect"** button to complete the connection.

# Scan Paper Business Card

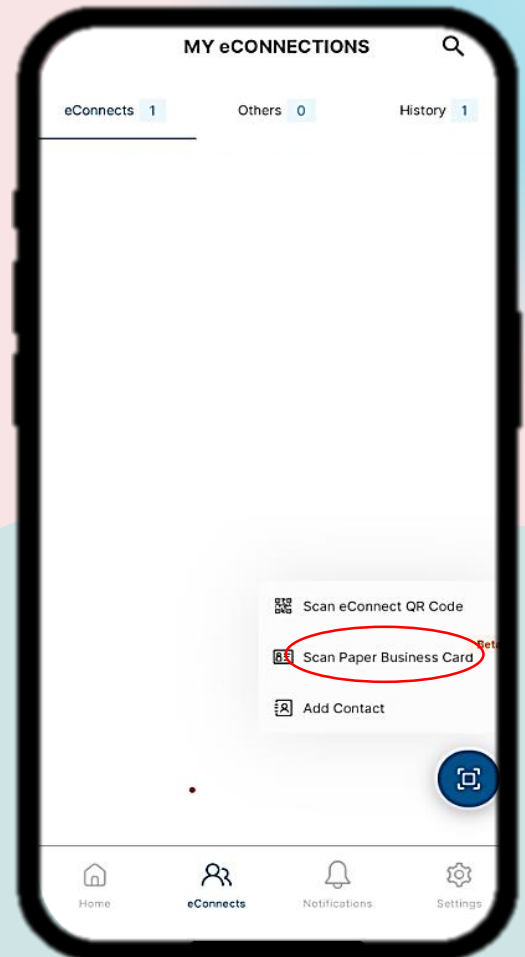

## **Scanning Paper Business Card:**

This feature enables you to easily scan a paper business card and extract its details for seamless connection..

To scan a paper business card:

- Tap the "**Scan Paper Card**" icon.
- Align the card within the scanner frame and capture the image.
- The app will extract the details automatically for you to save or connect.

**Note:** *Contacts added using the paper scan method will be listed under the "**Others**" tab.*

# Manually Add Contact

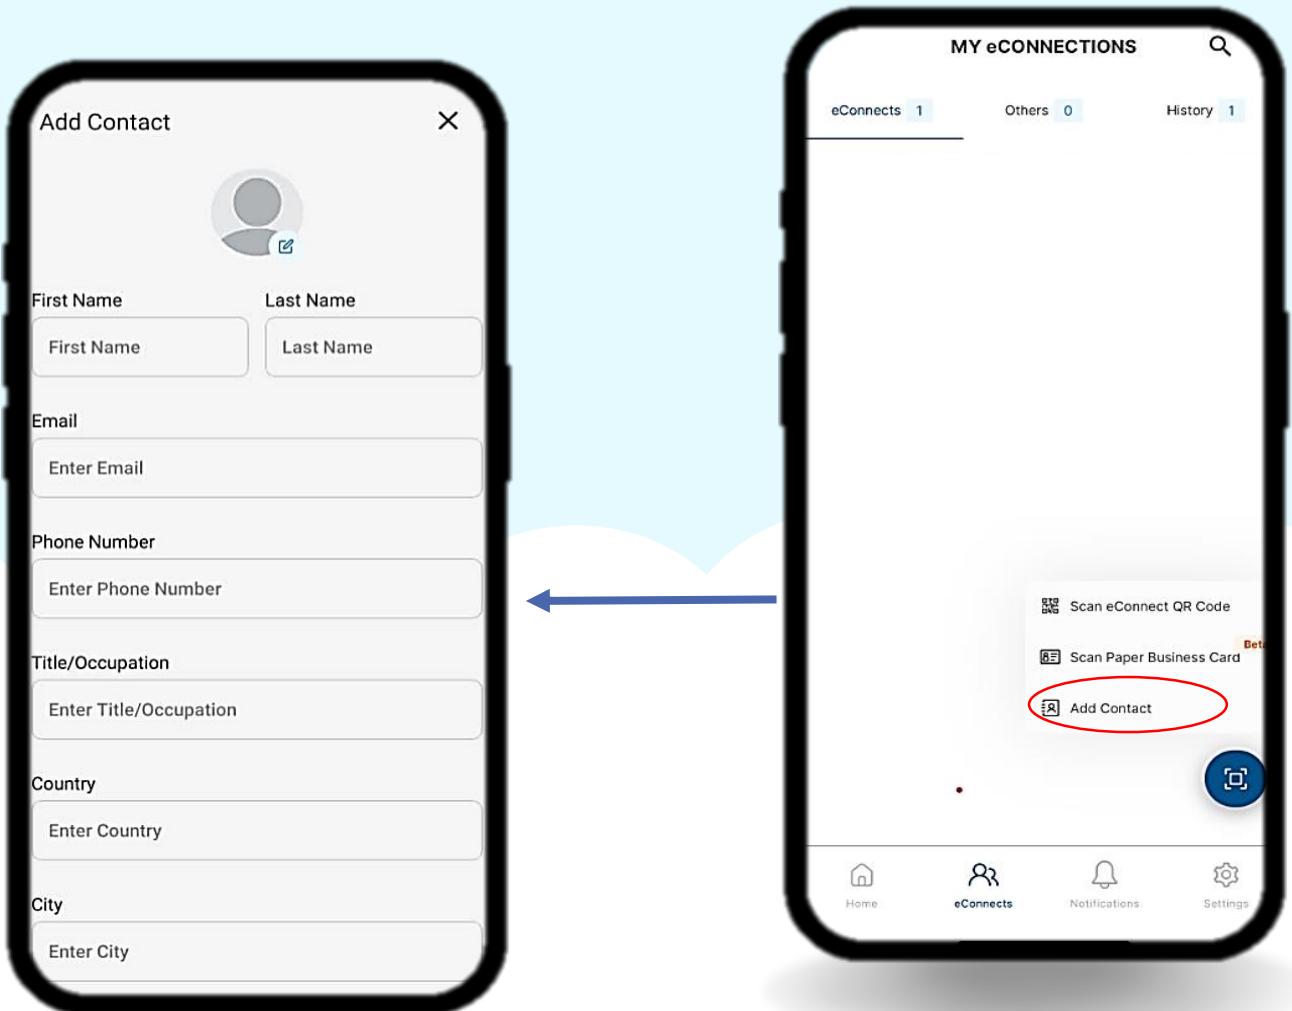

## ***To manually add a new contact:***

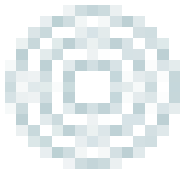

This feature enables you to manually add contact details.

To scan a paper business card:

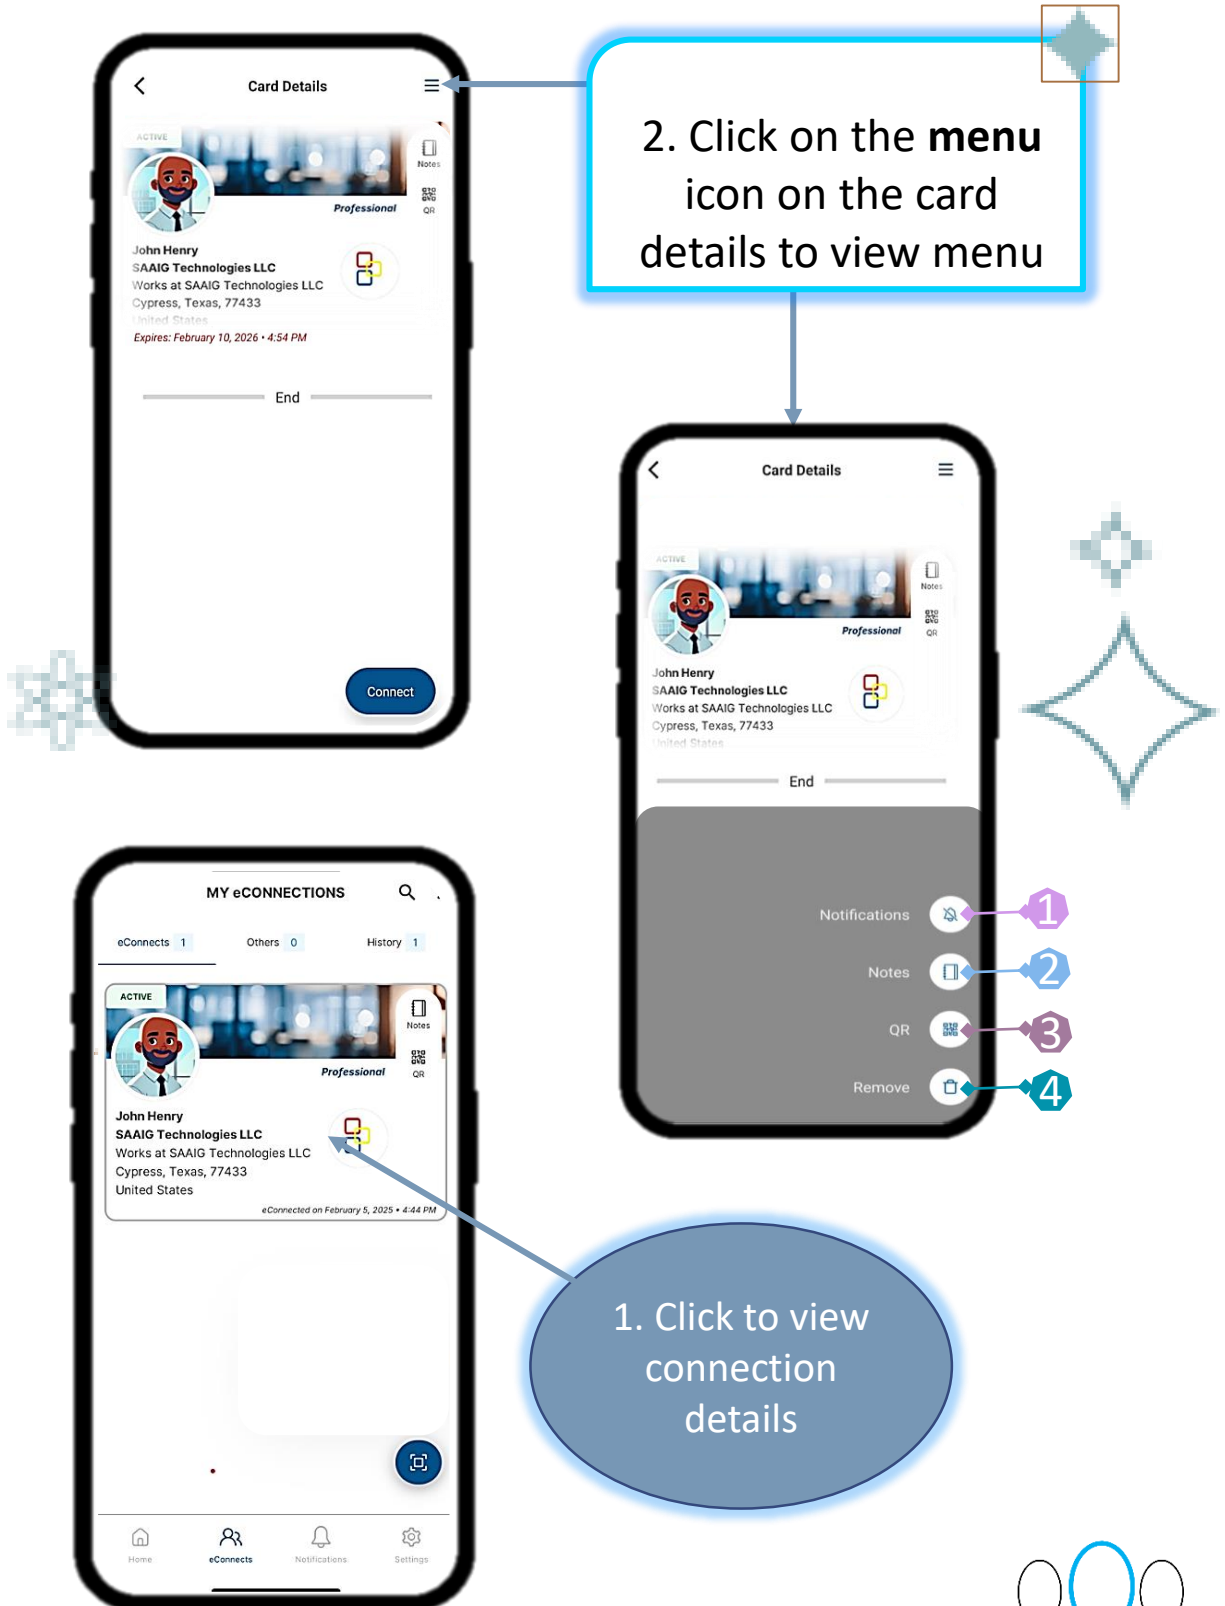

- Click the **"Add Contact"** button.
- Fill out the contact form with the required details.
- Click **"Save"** to store the contact in your list.

**Note:** *Contacts added using the paper scan method will be listed under the **"Others"** tab.*

# My eConnections Menu

## Notification

The **Notifications** button allows you to enable or disable notifications for updates from your connections.

## Notes

The **Notes** feature allows you to add and store important details about your connections for easy reference.

## QR

The **QR Code** feature enables quick and seamless connections by scanning or sharing unique QR codes.

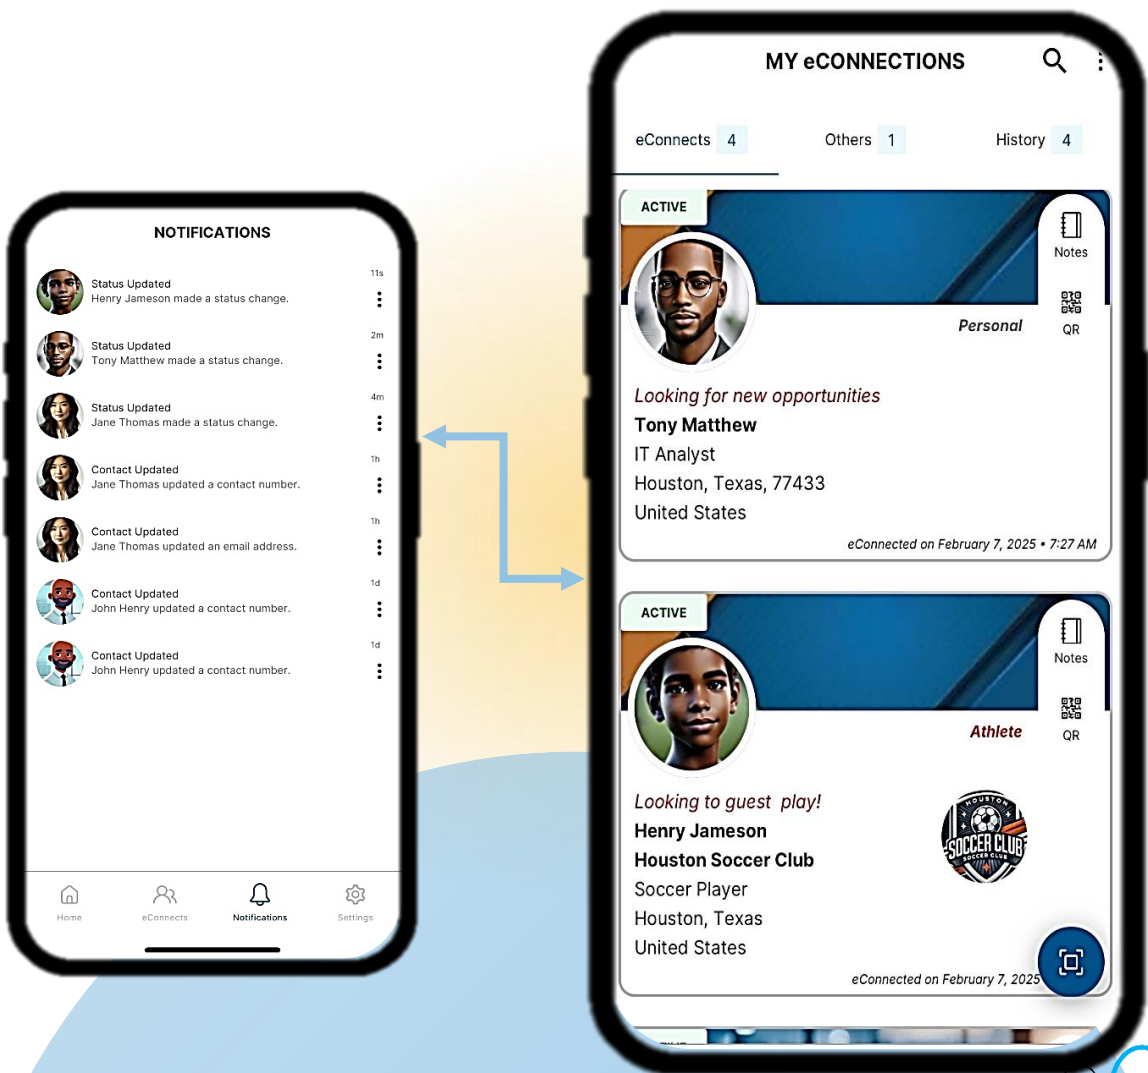

## Remove

The **Remove** button allows you to delete a contact from your connections list.

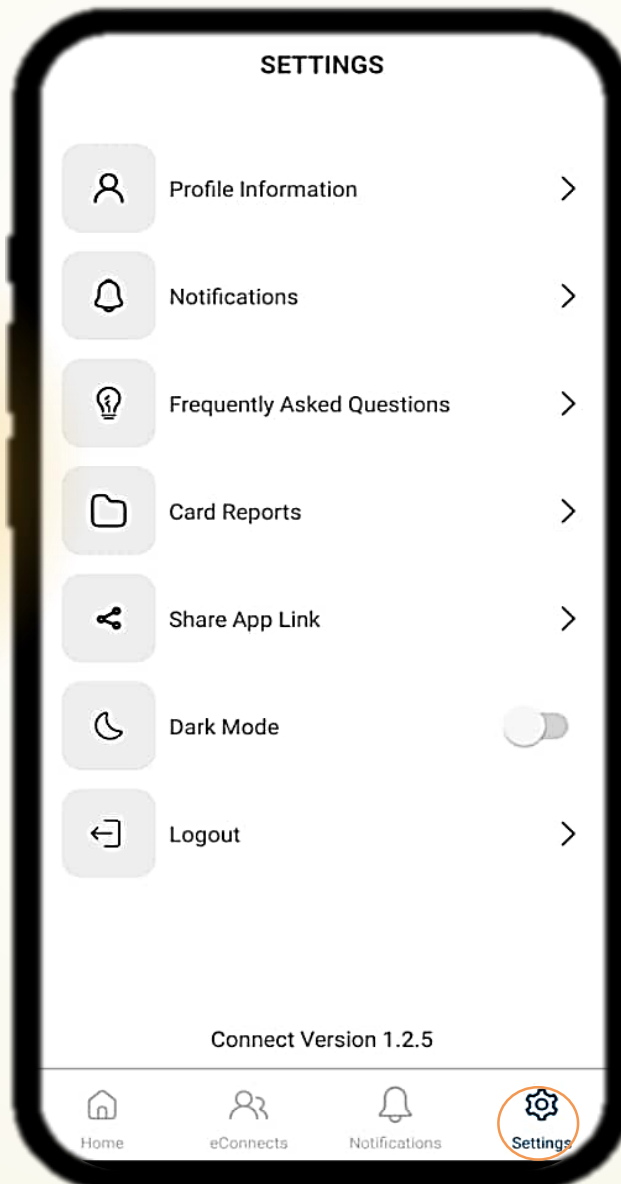

The **Notifications** feature keeps you informed whenever any of your connections update their cards, ensuring you always have the latest information.

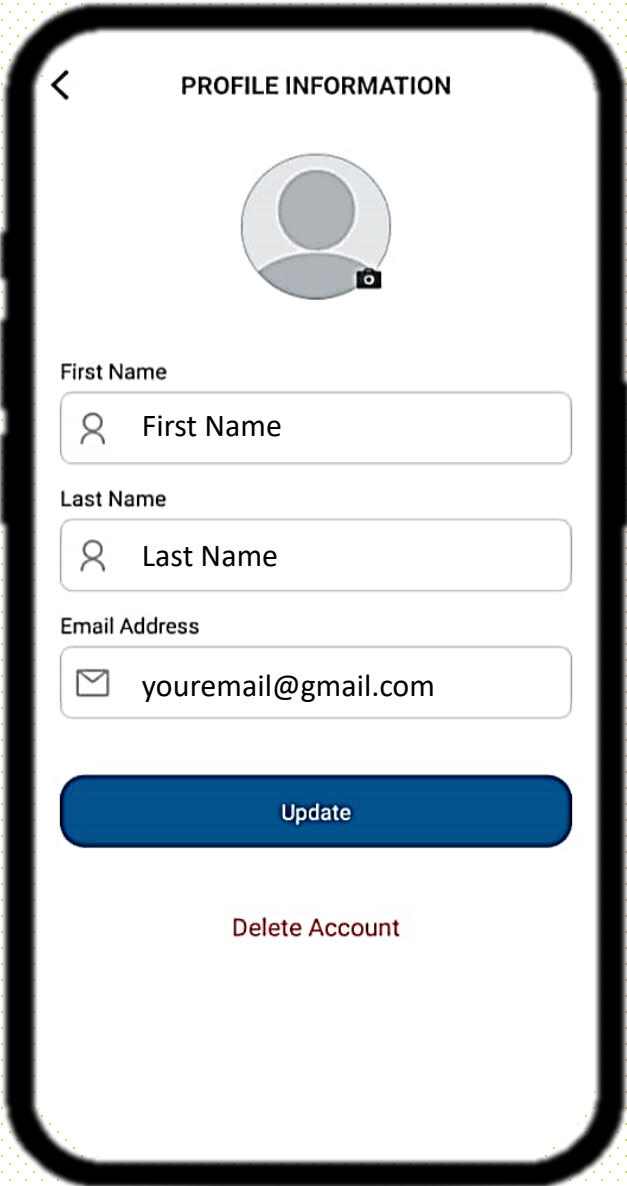

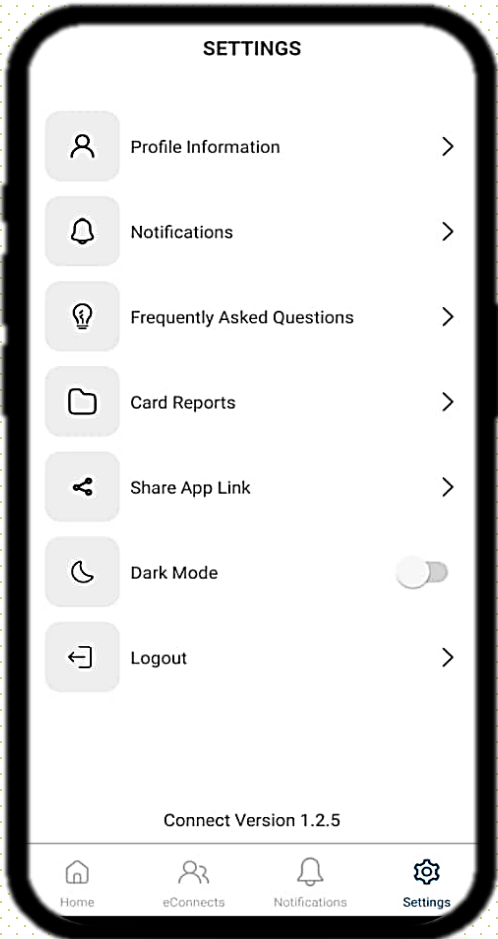

The **Settings** function allows you to personalize and customize your eConnect Cards app based on your preferences.

# Setting Menu

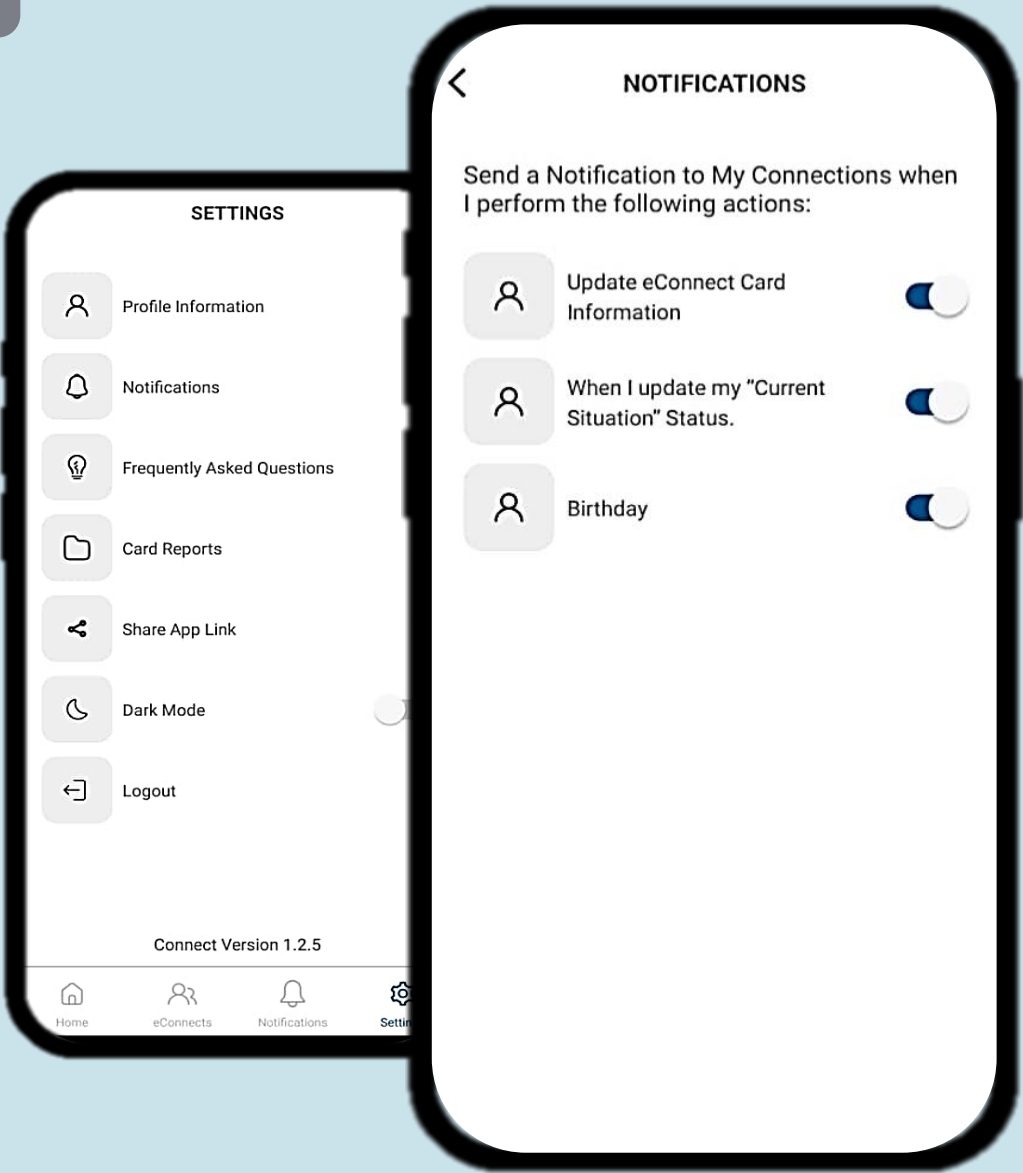

## 1. Profile Information Update

Select **'Profile Information'** to update profile and tap the **'Update'** Button

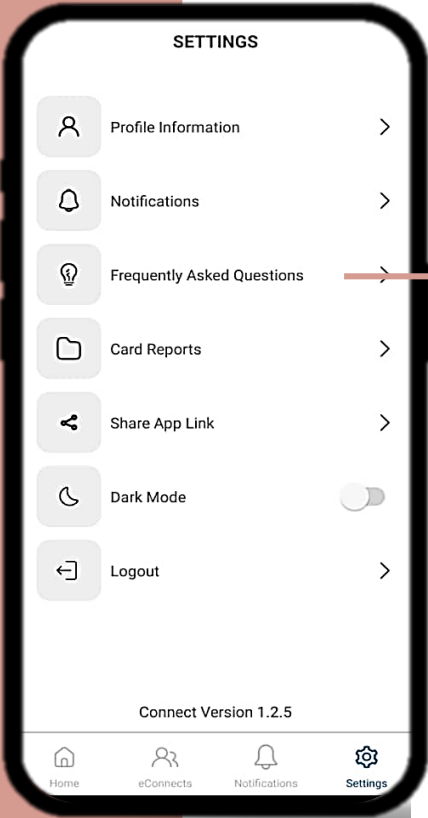

## 2. Notification

Select '**Notification**' to set general notification on the eConnect Cards App.

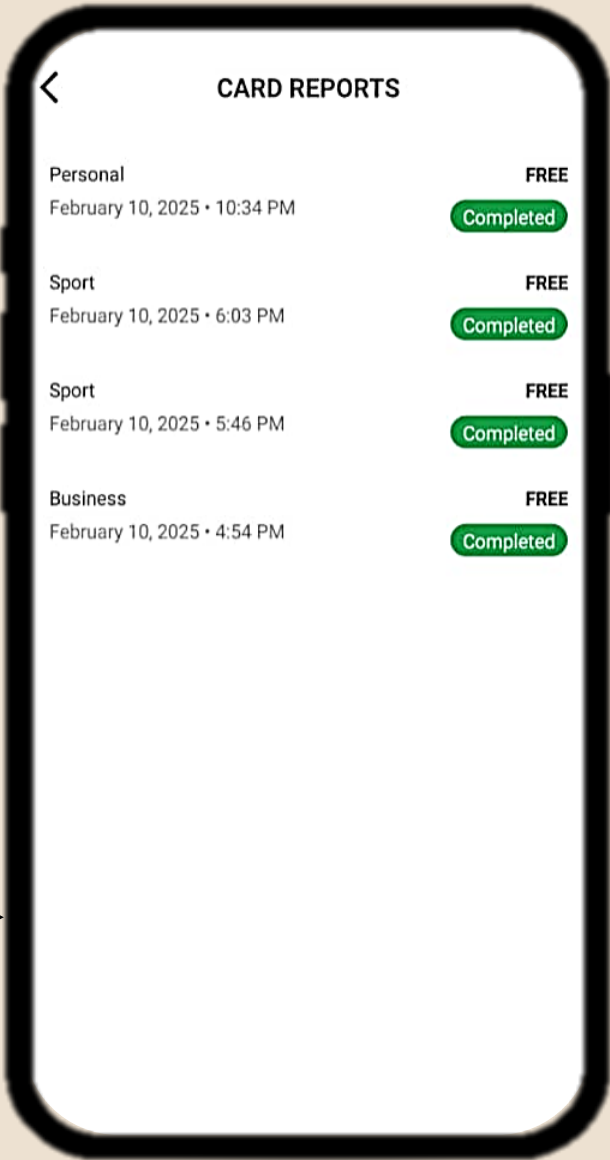

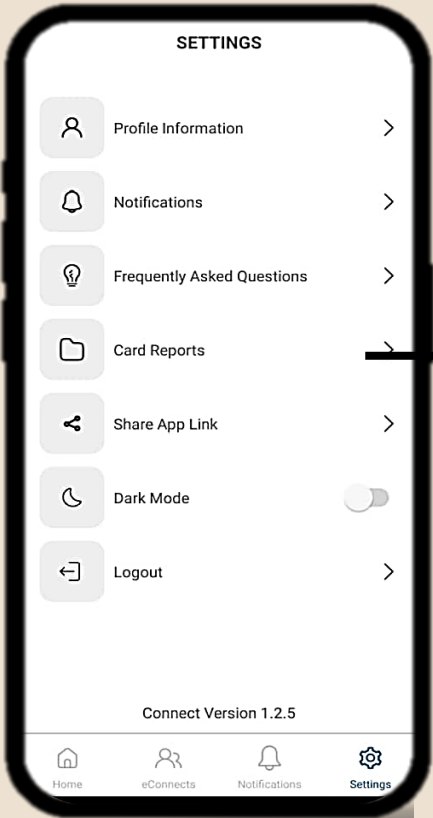

### 3. Frequently Asked Questions
